

Index

Symbols

2D-contrast sensitivity function (CSF) 176

A

Active Steganalysis 258
 active warden 139
 active warden, the 152
 advanced access content system (AACS) 315
 advanced benchmarks 278
 advanced birthday attacks 13
 All frequency embedding 254
 artificial “stego”-noise 146
 authentication watermarking (AW) 1
 authentication watermarking, for binary images 8
 authentication watermarking by self-toggling (AWST) 8
 authentication watermarking by template ranking (AWTR), and parity attacks 9
 authentication watermarking derived from Chang, Tseng and Lin’s data hiding (AWCTL) 11
 AW by template ranking with symmetrical central pixels (AWTC) 9

B

batch steganography 278
 Bayesian wavelet denoising 225
 benchmarking, in the steganalysis literature 269
 benchmarks 266
 bias noise 141
 binary classification 274
 binary images, classifications of 2
 binary steganalysis 269

bitstreams 336
 BitTorrentConnector 113
 Blindside 247
 blind steganalysis 273
 blokiness 252
 BLS signatures 12
 broadcast encryption systems, security problems with 317
 broadcasting encryption 30
 bullet scratch technique 293

C

C4 metric 180
 camera identification, four sets of techniques 292
 center of mass (COM) 215
 central limit theorem 142
 Chamleon method 31
 Chang, Tseng, and Lin’s data hiding (DHCTL, block-wise) 7
 charge coupled device (CCD) 141
 charge coupled device (CCD) image sensor 293
 Chi-square tests 252
 clone decoder 317
 CMAC message authentication code 12
 coalition tracing 324
 coded fingerprinting 28
 collusion attack 67
 collusion attack, definition of 73
 colour interpolation, and gamma correction 295
 complementary metal oxide semiconductor (CMOS) 141
 Completely Known Statistics 260
 Completely Unknown Statistics 260

compression-integrated encryption 346
 computational complexity 193
 confusion matrix 273
 content encryption 315
 content protection of recordable and prerecorded
 media (CPRM/CPPM) 316
 content scrambling system (CSS) 317
 cover 245
 covert communication 246
 cover text 197
 cryptographic traitor tracing technology 314

D

dark noise 141
 data bearing pixels' (DBPs') 16
 data hiding (DH) 1
 data hiding by self-toggling (DHST, pixel-wise) 6
 data hiding by template ranking (DHTR, block-
 wise) 6
 data hiding by template ranking with symmetrical
 central pixels (DHTC, pixel-wise) 7
 data hiding in JBIG2-compressed images (DHTCJ)
 14
 data hiding techniques, for binary images 5
 De-CSS software program 317
 decision-fusion 261
 decryption process 35
 Delaunay tessellation 93
 denoising and steganalysis 237
 denoising and stego-channel noise 235
 desynchronized fingerprinting 28
 Digimarc 256
 digital fingerprinting 27, 315
 digital rights management (DRM) schemes 336
 digital signature (DS) 3
 digital steganography 139, 193
 digital watermarking 25, 106, 198
 digital watermarking system 68
 digital watermarking techniques 2
 digital watermarking technology 67
 discrete cosine transform (DCT) 49, 69, 168, 296
 discrete cosine transformation. and rounding 296
 discrete Fourier transform (DFT) 49, 69
 discrete wavelet transform (DWT) 49, 256
 double stimulus impairment scale (DSIS) 172
 downsampling 296
 DWT-based watermarking 51

E

EbayConnector 113
 encryption process 35

Exif metadata standard 292
 EzStego 247

F

feature generation 250
 Fisher information 279
 Fisher linear discriminant 250
 frame averaging 70
 frame dropping 70
 frame swapping 70
 full reference (FR) quality assessment metrics 178

G

Gaussian noise 142
 general steganalysis 231
 geometrical distortions, classification of 86
 Gif-It-Up 247
 Gifshuffle 247
 globally unique identifier (GUID) 113
 GnutellaConnector 113
 Golomb code 17
 GoogleConnector 113

H

hash block chaining (HBC) 14
 Hide 247
 Hiderman 257
 histogram characteristic function (HCF) 215
 human visual system (HVS) 176
 hypothesis testing 269

I

image post-processing 295
 International Organization for Standardization (ISO)
 338
 interquartile range (IQR) 276
 intra-video collusion 75
 Invisible Secrets 247, 257

J

joint fingerprint embedding and decryption (JFD)
 31
 Joint Photographic Experts Group (JPEG) 295
 JPEG2000 336, 338
 JPEG2000 bitstreams, encryption of 343
 JPEG2000 codestream 340
 JPEG compression algorithm 291, 296
 JPEG encoding process 297
 JPEG image compression 295
 JPEG quantisation table 291

Index

JP Hide and Seek 247
JPSEC 342
Jsteg 247
just noticeable differences (JND) 178

K

Kerchoff's security principle 260
key-dependent wavelet packet subband structures 352
KL (Karhunen-Loeve) transform 252
Kundur's method 31

L

least significant bit (LSB) 146
least significant bits (LSBs) 3
least squares method (LSM) 268
Lemma's method 32
Lian's method 32
linear benchmark 279
local angular harmonic decomposition 251
luminance/chrominance transform 296

M

Masker 257
mean absolute error (MAE) 277
mean opinion score (MOS) 175
mean square error (MSE) 156, 164, 277
media content distribution forensics 113
media key block (MKB) 316
message authentication code (MAC) 3
Mexican Hat wavelet 94
Mid-frequency embedding 254
multi-class steganalysis 273
multimedia encryption 24, 25, 26
multimedia protection technologies 24
multiple regression analysis 280

N

natural binning 254
NetworkConnectors 110
no reference (NR) metrics 178

O

orthogonal fingerprinting 28
OutGuess 247

P

partial fingerprinting method 30
Partially Known Statistics 260

Passive Steganalysis 258
passive warden 246
passive warden, the 231
pay-per-view system 316
peak-to-signal-noise-ratio (PSNR) 47
peak signal-to-noise ratio (PSNR) 164, 178
perceptual channels decomposition (PCD) 176
perceptual invisibility 164
performance benchmarks, in steganalysis 268
piracy, in multimedia 314
Poisson noise 143
Poisson random variable 143
polynomial wavelet denoising 227
power spectrum 256
preferred viewing distance (PVD) 172
principal component analysis 251
principle component analysis (PCA) 219
prisoner's problem 245
public- and secret-key cryptography for authentication watermarking 11
pulse amplitude modulation (PAM) signal 215

Q

QIM. quantization index modulation
quantisation table, as a source discriminator 299
quantisation tables, used by popular software 301
quantitative steganalysis 272
quantization index modulation 248

R

random geometric distortions 87
receiver operating characteristic (ROC) curve 268
receiving operating characteristic (ROC) 166, 260
reduced reference (RR) quality metrics 178
reduced reference image quality assessment (RRIQA) 180
reversible data-hiding for binary images 15
reversible data hiding by template ranking with symmetrical central pixels (RDTC) 16
RGB color space 251
root mean squared error (RMSE) 179

S

S-Tools 247
Salt-and-pepper noise 145
sample pairs analysis (SPA) 268
scale invariant feature transform (SIFT) 93
second generation watermarking schemes 92
secure steganography, definitions of 194
sequential steganography 252

simple spatial domain embedding methods 149
 singular value decomposition (SVD) 46, 49
 singular value decomposition (SVD), for digital watermarking 46
 spatial mask 222
 spatial steganalysis 215
 Spread spectrum 248
 spread spectrum (SS) 67
 spread transform dither modulation (STDm) 67
 square root of the mean square error (RMSE) 277
 steganalysis, definition of 214, 266
 steganalysis techniques 266
 steganographic security 197
 steganographic systems 193
 Steganography 245
 steganography, definition of 266
 steganography, two spatial methods of 154
 Steganos 247
 Stegdetect 257
 stego-channel 234
 stego-systems, capacity of 197
 stego-text channels 197
 Stegotif 247
 Stego Watch 258
 StegSpy 257
 structural SIMilarity (SSIM) 180
 Supervised Learning Based Steganalysis 259
 support vector machine 251
 support vector machines (SVM) 219
 SVD-based watermarking 52

T

temporal frame averaging (TFA) 67, 75
 TFA collusion attack 78
 theory of signal detection 268
 tracing process 36
 traitor tracing 314
 traitor tracing for anonymous attack for aacs standard 322
 traitor tracing scheme, two steps of 321

traitor tracing schemes 316
 transparent/perceptual encryption 336
 transparent encryption 342
 transparent encryption with wavelet packets 346
 transplantation attacks 13
 two alternative forced choice (2AFC) 173

U

universal quality index (UQI) 179
 Universal Steganalysis 250

V

video watermarking, security requirements 72
 video watermarking algorithms, classifications of 69
 visual information fidelity (VIF) 156
 Visual Steganalysis 249

W

watermark detection 84
 watermark embedding 57, 84
 watermark estimation remodulation (WER) 77
 watermarking 24, 198
 watermarking, against geometric distortions 84
 watermarking, classifications of 47
 watermarking, content-based approaches 92
 watermarking, invariant domains 89
 watermarking, synchronization marks 90
 watermarking-based multimedia distribution 28
 watermarking extraction 58
 watermarking techniques 87
 watermarks, authentication 2
 watermarks, robust 2

X

xsteg 257

Z

zero-day attack 259
