

# Acknowledgment

Many people deserve credit for the successful publication of this book. We express our sincere gratitude to each of the chapter authors in this book, who contributed and expanded all the ideas mentioned above and made their expertise available in bringing this book to fruition. Our sincere thanks to the many colleagues and authors who have contributed invaluable suggestions in their thorough reviews of each chapter. Support from colleagues and staff in our respective departments, that is, the Department of Information Systems and Technology and the Department of Management at Minnesota State University Mankato, helped sustain our continued interest. A special note of thanks goes to all staff at IGI Global, whose contribution throughout the whole process from inception of the initial idea to final publication has been invaluable.
