Symbols

2 Pages graph layout problem, definition 1120
 2-D data representation, definition 1438
 2D objects with GNG 1365
 2-D representation, solar radiation data 1433
 2D-PAGE analysis 1583–1588
 2Pages graph layout problem 1117
 3D deformable model, definition 630
 3D object recognition (3DOR) 248
 3D reconstruction tests 843

A

absorbance, definition 588
 ACO 1531
 acoustic attenuation spectrum, definition 1302
 acoustic systems, optimization of 1296
 action planning 1549
 action planning, definition 1554
 active appearance models (AAM), definition 630
 active interactive genetic algorithms (aiGAs) 788
 active learning 1, 1383
 active learning, with SVM 1–8
 active model, definition 553
 actuators, definition 955
 adaptation 592
 adaptation, definition 470
 adaptive business intelligence 16–21
 adaptive computation paradigm 9
 adaptive geometric computing 9
 adaptive neural algorithms 22–30
 adaptive neuro-fuzzy systems 31–36
 adaptive rule-driven devices 37

adaptive spatial memory (ASM) 9
 adaptive system, definition 580
 adaptive technology 37–44
 adaptivity 37
 additive monotonic cooling 346
 ad-hoc networks, evolutionary computing approach 589
 ad-hoc networks, swarm intelligence approach for 1530
 admissible alternative, definition 436
 advanced cellular neural networks image processing 45–50
 affectation step, definition 1251
 AGALZ 1316
 agent applicability 952
 agent autonomy, definition 955
 agent based mode, definition 1237
 agent based query answering system 925
 agent learning process 928
 agent percepts, definition 955
 agent taxonomy 941
 agent typology 941
 agent, definition 513, 931
 agent-based modeling 51–57
 agents, types of 951
 agglomerative hierarchical clustering 231
 AI 918
 AIBO, definition 630
 aiGA weight tuning 788
 air flight control, definition 540
 ambient intelligence (AmI) 85
 ambient intelligence (AmI) environment 92–98
 ambient intelligence (AmI), in elderly healthcare 94
 ambient intelligence (AmI), in tourism 94
 ambiguous grammar, definition 773

AmI, in vehicles and transports 94
 analogic cellular computer 45
 analytic modelling 969
 angiographies 110–117
 angiographies, and image segmentation 110–117
 ANN 1358, 1360, 1361, 1568
 ANN application 1605
 ANN development with genetic programming 619
 ANN development, evolving graphs 618
 ANN model 1603
 ANN simplification, evolving graphs 618
 annotation, definition 342
 ANNs design, evolutionary approaches for 575
 ANNs modeling, mathematical framework for 1057
 ANNs modeling, mathematical methods for 1059
 ANNs output combination 556
 ANNs, need of use 1358
 ANOVA 304
 answer set programming (ASP) 1373
 ant colony algorithm 242
 ant colony optimization, definition 1535
 AntHocNet 1532
 AntHocNet, definition 1535
 anti-granulometries 1107
 architecture, definition 1017
 area of the search space, definition 493
 arrhythmia, definition 916
 ART (adaptive resonance theory), definition 1496, 1503
 ART, definition 1242
 articulation ontology, definition 499

artificial cell, definition 382
 artificial embryogeny model 378
 artificial embryogeny, definition 382
 artificial intelligence (AI) 71, 85, 92, 125, 327, 941
 artificial intelligence (AI) methods 188
 artificial intelligence, and breakwaters 144–150
 artificial intelligence, and computer-aided diagnosis 157–160
 artificial intelligence, and education 138–143
 artificial intelligence, and information retrieval 151–156
 artificial neural network (ANN) 639, 1417
 artificial neural network (ANN), development 125–130
 artificial neural network (ANN), labelled directed graph 639
 artificial neural network (ANN), types of 643
 artificial neural network design 575
 artificial neural network, definition 559, 588, 607, 923, 1011, 1017, 1120, 1204
 artificial neural networks 875, 167
 artificial neural networks (ANNs) 192, 580, 624, 933, 938, 962, 1063, 1210, 1212, 1438, 1608
 artificial neural networks, field of structural concrete 118–124
 artificial neural networks, mathematical modeling of 1056
 artificial neural networks, modularity 1095
 artificial neuroGlial networks 167–171
 artificial vision 367, 547
 artificial vision techniques 384
 ASIC, definition 839
 association rule 76
 association rule mining 172–178
 association rule mining (ARM) 76–84
 association rules, definition 890
 association rules, types of 175
 associative memory 248–255
 astrocytes 168
 asymptotic stability, definition 1224
 atrial fibrillation, definition 916
 attractor, definition 1271
 attribute reduction, definition 1403

attribute, definition 890
 attributive operator, definition 1165
 authorization certificate 1406
 automated brute force attacks 187
 automated cryptanalysis, of classical ciphers 186–191
 automated negotiation threads 1418
 automated negotiation, definition 1424
 automated negotiations 1524–1529
 automated visual inspection (AVI) 206–210
 automatic configuration 399
 automatic evaluation systems 139
 automatic infant cry recognition (AICR), definition 866
 automatic signature verification, definition 1237
 automatic speech recognition (ASR) 101
 autonomous robotics 603
 autonomous robotics, definition 607
 autonomous vehicles, neural control system for 1197
 autoregressive models, definition 630
 AutoTutor 1182

B

back propagation algorithm 508, 832, 866, 938, 962, 1008, 1128, 1210, 1237, 1608
 backpropagation through time 1417
 backward chaining, definition 994
 backward elimination strategy, definition 545
 backward elimination, definition 882
 Bayesian image modeling 224
 Bayesian inference method 1333
 Bayesian inference, definition 1335
 Bayesian methods 1330
 Bayesian MLP learning 1486
 Bayesian networks (BNs) 68
 Bayesian neural networks, definition 815
 Bayesian theory, definition 1040
 behaviour based robotics, definition 607
 behaviour-based clustering 231–235
 belief maintenance systems 330, 333
 belief set, definition 1355
 belief, definition 1355
 beliefs, definition 1374, 1431
 best practice, definition 535
 bicoherence, definition 1271

bilateral negotiation, definition 1424
 bilateral negotiations, and neural networks 1524
 binary chromosome, definition 872
 binary decision diagrams (BDDs) 1549
 binary hierarchical clustering 290
 binary languages, definition 1172
 binary relation, definition 708
 binary representation 796
 binary space partitioning, definition 815, 823
 binary spatter codes (BSC), definition 519
 binary symmetric relation, definition 708
 binding occurrences, definition 1165
 binding, definition 519
 bioinformatic methods 1338
 bioinformatics 1065, 1337
 bioinformatics 236–240, 241–247
 bioinformatics, definition 1070, 1342
 bioinformatics, prototype based classification 1337
 bio-inspired algorithms 238, 595
 biomarker, definition 1342
 biomedical image analysis 710, 711
 biomedical imaging 372
 biomedicine 236
 biometric data processing 12
 biometric security 262–269
 biometric system, definition 1265, 1453
 biometrics 262–269
 biometrics, and security 265
 biometrics, traits of 263
 Blackboard, definition 486
 blind source separation 369
 bootstrap, definition 566
 bootstrapping, definition 470
 BP algorithm, architecture 837
 breakwaters 144
 British National Corpus (BNC), definition 1567
 bundling, definition 519
 business intelligence 16
 BYY harmony learning, definition 901

C

camera calibration, definition 847, 852
 cancer data 1205
 cancer databases 1589

- cancer, definition 1594
- careers paths, definition 1035
- CART 438
- cart-centering 819
- case-based reasoning, definition 995
- catadioptric camera, definition 852
- catchment area, definition 1190
- Cauchy-Schwartz distance, definition 909
- causal rejection principle 1371
- causal rejection principle, definition 1374
- causation 68
- cellular automata 354
- cellular automata modelling of complex systems 355
- cellular automata, modeling of complex systems 353
- cellular automaton, definition 359
- cellular cycle, definition 382
- cellular neural network 45–50
- cellular neural network (CNN) 218–222
- cellular neural network (CNN), feedback-driven 220
- cellular neural network (CNN), isotrophic model 219
- cellular neural networks 206
- cellular neural networks image processing, advanced 45–50
- central catadioptric camera, definition 852
- central nervous system (CNS) 304–311
- centroid, definition 436
- CHAID 438
- change-point, definition 1003
- chaos, definition 1272
- chaotic neural networks 275–281
- chemometrics, definition 666
- chemometrics, functional dimension reduction 661
- CHENN model 391
- Chomsky hierarchy 597
- chromosome, definition 574, 595
- chronic renal failure (CRF) 71
- ciphers 179
- circuit, definition 479
- circumscription 330
- class-based language models 1467, 1469
- classical ciphers 186–191
- classical conditioning, definition 1204
- Classification 886, 888
- classification module 556
- classification process 556
- classification system 1451
- classification system, definition 1453
- classification, definition 802, 962
- classifier, definition 371
- classifier, definition 890
- CLB, definition 839
- cleanup memory, definition 519
- clinical proteomics 1337
- clinical proteomics, definition 1342
- closed-world assumption, definition 995
- closure problem, definition 773
- cluster analysis 289
- cluster analysis, definition 1350
- cluster analysis, of gene expression data 289–296
- cluster head, definition 758
- cluster, definition 1218, 1231
- cluster-based architecture, definition 758
- clustering 67, 297, 887, 888
- clustering analysis 297
- clustering, agglomerative hierarchical 231
- clustering, behaviour-based 231–235
- clustering, binary hierarchical 290
- clustering, definition 595, 891
- clustering, hierarchical 289
- clustering, self-splitting 291
- clustering, traditional 299
- Cocke-Younger-Kasami algorithm 597
- code bloat, definition 773
- code mobility 1406
- code security 1406
- cognition 340
- cognition, analyzing of 256–261
- cognitive agents 87
- cognitive modelling, and ANNs 161–166
- cognitive psychology, definition 342
- collaboration and communication mechanisms 983
- collaborative learning environment, definition 1282
- color spaces, definition 388
- combinational network 611
- combinatorial optimization 344
- commonsense and expert systems 334
- commonsense business knowledge 334
- commonsense knowledge base implementations 335
- commonsense knowledge base, definition 336
- commonsense knowledge representation 334
- commonsense knowledge representation formalisms 328
- commonsense knowledge representation i-formalisms 327
- commonsense knowledge, definition 333, 336
- commonsense representation 334
- commonsense representation formalisms 327
- commonsense, definition 327
- commonsense, importance of 327
- communication & collaboration tool, definition 988
- competitive layer, definition 1231
- complete fuzzy rule base, definition 733
- completely minimitive ranking function, definition 1355
- complex network, definition 359
- complex systems 51, 359
- complex systems, cellular automata modelling of 355
- complex systems, definition 1063
- complex-valued neuron 361
- compositional structure, distributed representation of 514
- computational complexity theory, definition 1023
- computational dynamics, definition 1120
- computer aided diagnosis (CAD), definition 375
- computer game, definition 535
- computer model, definition 535
- computer morphogenesis 377

 external memory search algorithms 502

F

F1-measure, definition 545
 face detection, definition 1265
 face identification, definition 1265
 face recognition 248, 1455–1461
 face recognition, definition 371
 facial expression recognition 625
 facial expression recognition system, definition 630
 fact table, definition 430
 factor analysis, definition 901
 factored-state Markov decision process, definition 830
 factors, definition 1574
 fan-in, definition 479

fast correlated-based filter (FCBF) method 634
 fault-tolerant, definition 479
 feature extraction 202, 1449
 feature extraction problem, definition 1190
 feature extraction, definition 1454
 feature extraction, definition 371, 638
 feature selection 66, 632
 feature selection, definition 371, 559, 638
 feature selection, definition 916, 1237
 feature space, definition 560
 feed forward off-chip implementation 834
 feed-forward artificial neural network 639–646
 feed-forward artificial neural network, definition 1011, 1017
 feed-forward artificial neural networks 1004, 1012
 feedforward neural networks, definition 1395
 field programmable array (FPGA), definition 560
 field programmable gate array (FPGA) 555
 filling factor, definition 1302
 filter method, definition 638
 finite automata, definition 602
 finite element method, definition 553
 FIPA, definition 923
 first-order method, definition 1011
 first-order predicate calculus 334
 FIS, definition 1242
 Fischertechnik system 1385
 fitness function 756, 1303
 fitness function, definition 595
 fitness function, definition 758, 872, 1309
 fitness landscape, definition 1150, 1196
 fitness, definition 773, 1150, 1196
 fixed point theorem, definition 1224
 fixed search 584
 flexible manufacturing system (FMS) 749
 flexible query, definition 931
 flocking, definition 540
 Floreano, Dario 605
 FOCUS 634
 fonator system 1439, 1445

forward chaining, definition 995
 forward selection strategy, definition 545
 forward selection, definition 882
 Foundation for Intelligent Physical Agents 1405
 Fourier transform (FT) 223
 FPGA implementation of ANNs 831
 FPGA, definition 839
 frames 329
 Fraunhofer AIS, Germany 1385
 frequency domain stability inequality of Popov, definition 1224
 frequent item-sets, discovery of 77
 frequent item-sets, generating 77
 FTS engine interface 657
 FTS engine, structure of 656
 full adder, definition 1480, 1561
 full factorial design, definition 1574
 full-text search 656
 full-text search (FTS) engine, definition 660
 full-text search engines 654
 functional data analysis, definition 666
 functional dimension reduction 661
 functional equation, definition 676
 functional imaging 372
 functional network, definition 676
 functional networks 667
 fusing variables, definition 1517
 fusing variables, definition 462
 fuzzification 970
 fuzzification, definition 695, 718, 766, 973, 1128
 fuzzy algorithm, definition 718
 fuzzy approximation of DES state 677
 fuzzy ART equations 1492
 fuzzy ART neural network stream processing 1491
 fuzzy ART training process 1492
 fuzzy ART, definition 1496
 Fuzzy ART, definition 1503
 fuzzy clustering algorithms 711
 fuzzy c-means (FCM) 711
 fuzzy compositional rule of inference (CRI), definition 733
 fuzzy control, definition 695
 fuzzy decision trees 696
 fuzzy inference system 1124
 fuzzy inference systems, definition 718, 823

fuzzy k-nearest neighbour (FKNN) 711
 fuzzy logic 31, 330, 710, 797, 884
 fuzzy logic estimator 719
 fuzzy logic in data mining tasks 884
 fuzzy logic systems, supervised learning of 1510
 fuzzy logic, definition 462, 687, 695, 727, 802, 816, 891, 973, 1128, 1237, 1496, 1517
 fuzzy matching, definition 660
 fuzzy membership function, definition 695
 fuzzy neural networks (FNN) 32
 fuzzy operator, definition 718
 fuzzy petri nets, definition 687
 fuzzy relational neural network (FRNN), definition 866
 fuzzy rule base, definition 462, 1517
 fuzzy rule interpolation 728
 fuzzy rule interpolation methods 729
 fuzzy rule interpolation, definition 733
 fuzzy rule, definition 742, 1128
 fuzzy set theory, definition 780
 fuzzy set, definition 695, 708, 802, 973
 fuzzy similarity calculation 800
 fuzzy similarity for data classification 796
 fuzzy similarity representation 798
 fuzzy similarity representation, model for 798
 fuzzy SQL query, definition 932
 fuzzy SQL, definition 931
 fuzzy system (FS), definition 766
 fuzzy system, definition 695, 742, 1129, 1403
 Fuzzy systems 884
 fuzzy systems, multilayer optimization approach for 1121
 fuzzyfication, definition 727

G

game-based learning 140
 games theory, definition 1023
 gas-fired cooktop burners 1568
 gas-fired cooktop burners, thermal design 1568
 gate (logic), definition 479
 Gaussian distribution, definition 1087
 Gazetteer, definition 1567
 gene expression 236, 241

gene expression data, cluster analysis 289–296
 gene expression, definition 1211
 gene finding 237
 gene mapping 242
 gene regulation network use 744–747
 gene regulatory network 237
 gene, definition 382, 1595
 generality 334
 generalization, definition 1523
 generalized cellular automaton, definition 359
 generalized constraint language 777
 generalized constraints 777
 generalized cylinder (GC) 114
 generalized theory of uncertainty (GTU), definition 780
 generalized-regression (GR) NN, definition 1424
 generation, definition 1150, 1196
 generative topographic mapping (GTM), definition 795
 generic gate 614
 genes, definition 595
 genetic algorithm 592, 653, 742, 766, 807, 916, 1101, 1302, 1335, 1488
 genetic algorithm, with division into species 651
 genetic algorithms (GA), definition 616
 genetic algorithms (GAs) 647, 748–754, 1504
 genetic algorithms components, definition 1517
 genetic algorithms components, definition 462
 genetic algorithms, definition 758, 859, 872, 1237
 genetic fuzzy rule generator architecture 457
 genetic fuzzy system 762
 genetic fuzzy system, definition 766
 genetic fuzzy systems, ports and coasts engineering 759
 genetic networks 242
 genetic operators 599
 genetic operators 762
 genetic operators, performance effect of 1504–1509
 genetic pool 650
 genetic programming (GP) 241, 527, 598, 619

genetic programming, definition 773, 916
 genetic regulatory network model 745
 genome encoding 762
 genotype, definition 617, 624
 geodesic active contour model 549
 geodesic curve, definition 553
 geriatric residences, planning agent for 1316–1322
 GGGP systems, crossover operator 769
 Gibbs sampler, definition 1465
 global classification 1359
 global constraint, definition 409
 global path planner, definition 1079
 global path planners 1072
 global stability, definition 1224
 GNG, definition 1218
 gold-silver price, definition 1003
 GP 590
 GPGPU (general-purpose computation on GPUs), definition 1496, 1503
 GPU (graphics processing unit), definition 1496, 1503
 gradient descent 1417
 grammar evaluation 600
 grammar genetic programming approach 599
 grammar-guided genetic programming (GGGP) 767
 grammar-guided genetic programming, definition 773
 granular computing 774, 775
 granular computing, definition 780
 granulometries 1107
 graph edge, definition 1079
 graph invariant, definition 709
 graph node, definition 1079
 graph partition problem 1115
 graph subsumption, definition 1184
 graph, definition 505
 graph, definition 709
 graphics processing units (GPUs) 873–878
 greedy algorithm, definition 546
 greedy search, definition 883
 gross errors, definition 1395
 growing cell structures 782
 growing cell structures visualization 781
 growing cell structures, definition 787

growing neural gas (GNG) 1364
 growing neural gas, definition 1368
 GTM user modeling 788

H

HAM-PHAM 828
 hardware genetic algorithm (HGA) 612
 harmony search (HS) 803
 harmony search model and application 803
 harmony search, definition 807
 Harris corner detector, definition 389
 HCI applications 625
 health care agent, nature-inspired 1317
 Hebbian learning, definition 1368
 heterogeneous multi-core computing, definition 1503
 heuristic function, definition 506
 heuristic information, definition 1535
 heuristic knowledge, definition 995
 heuristic modelling 968
 heuristic, definition 486, 602, 1023, 1465
 HEXQ 828
 HGA, definition 617
 Hidden Markov Model 1565
 Hidden Markov Model (HMM), definition 630, 1567
 hierarchical fuzzy logic systems 456
 hierarchical fuzzy logic systems, definition 463, 1517
 hierarchical neuro-fuzzy systems 808, 817
 hierarchical reinforcement learning 825, 830
 hierarchical task decomposition, definition 830
 high level synthesis, definition 839
 holographic reduced representation (HRR), definition 519
 holonomous robot, definition 847
 homogeneous multi-core computing, definition 1503
 HOPS 840, 841
 HOS 1226
 HOS, definition 1231, 1272
 Human Genome Project 236
 human-computer interaction (HCI), definition 631
 human-machine interaction 628
 hybrid algorithm 636
 hybrid dual camera systems 849

hybrid dual camera vision system 840
 hybrid intelligent system, definition 866, 872
 hybrid intelligent systems 854
 hybrid intelligent systems, definition 859
 hybrid meta-heuristics based scheduling system 855
 hybrid method, definition 638
 hybrid methods 636
 hybrid methods, definition 1079
 hybrid navigation 1076
 hybrid omnidirectional pin-hole sensor (HOPS) 841
 hybrid perspective 1589
 hybrid scheduling module 856
 hybrid space, definition 1595
 hybrid spaces 1589
 hybrid two-population genetic algorithm 585, 649
 hybridization, definition 780
 hypergraph, definition 709

I

ICA model 22–30
 idempotence, definition 1110
 IFIP framework 968
 IF-THEN rules, definition 727
 ill-posedness, definition 375
 image - video face recognition 1457
 image analysis, definition 1309
 image analysis, particle swarm optimization 1303
 image integration 373
 image integration, definition 376
 image moments, definition 389
 image pre-processing 1448
 image pre-processing, definition 1454
 image processing, definition 973
 image rectification 384
 image restoration, and Bayesian neural networks 223–230
 image segmentation 373
 image transformation, definition 1110
 image-based visual homing 1185, 1190
 immersive technologies 536
 immune artificial system 238
 impact-echo 192–198, 199–205
 implementation, definition 336
 implicit hybridization 1194
 imprecise marking, definition 687
 inclusion error 1357
 increasingness, definition 1111
 incremental learning operator 600
 independence assumption 880
 independence subspaces, definition 901
 independent component analysis (ICA) 270–274, 883, 1265
 independent subspaces 892
 indexer, definition 660
 individual, definition 493, 574
 induction, definition 703
 infant vision system 248
 inference network, definition 995
 inflective language, definition 1472
 inflective languages, statistical modelling of 1467
 information extraction (IE) 106, 1567
 information pattern, definition 1218
 information potentials and forces, definition 909
 information processing, definition 342
 information quality decay, definition 423
 information retrieval, and AI 151–156
 information retrieval, definition 423
 information theoretic learning (ITL) 902
 information theoretic learning, definition 909
 initial annealing temperature, definition 574
 initial population 592
 input data selection 578
 insect behaviour 1537
 instance, definition 891
 institutional memory, definition 988
 intelligence, definition 939
 intelligent agent, definition 51, 431, 535, 932, 1431
 intelligent MAS 917
 intelligent query answering mechanism 924
 intelligent radar detectors 933, 934, 935
 intelligent software agent, and e-commerce 941–944
 intelligent software agent, definition 955

intelligent software agents 951
 intelligent software agents, and e-commerce 945–949
 intelligent software agents, applications in focus 950
 intelligent system 51
 intelligent systems 257
 intelligent traffic sign classifiers 956
 intelligent tutoring system (ITS), definition 1257
 intelligent tutoring system, definition 1184
 intelligent tutoring systems 138
 intelligent tutoring systems, NLP techniques in 1253
 intelligent voltage instability detection system 1597
 Intellimetric 139
 intension aware techniques, definition 500
 interactive configuration 401
 interactive systems, and uncertainty 963–966
 interactive systems, managing uncertainties 1036
 interconnect challenges 1558
 internal robotics 1376
 international arbitrage, definition 1003
 international bimetalism, definition 1003
 international monetary system, definition 1003
 interoperability, definition 1282
 intron, definition 773
 intuitionistic defuzzification 970
 intuitionistic fuzzification 970
 intuitionistic fuzzy components, modification of 970
 intuitionistic fuzzy image processing 967
 intuitionistic fuzzy index, definition 973
 intuitionistic fuzzy set, definition 973
 inverse perspective mapping 843
 inverse perspective mapping (IPM), definition 847
 inverted index, definition 660
 isomorph (function), definition 1243
 isomorphic graphs, definition 709
 iSTART 1182
 iteratively reweighted least squares (IRL), definition 1144

J

Jacobians, definition 1087
 job arrival integration mechanism 857
 job elimination mechanism 857
 joint belief distribution 436
 joint camera calibration 843
 JONSWAP spectrum, definition 1608

K

Karhunen-Loeve, definition 553
 k-cross-validation, definition 560
 kernel density estimate, definition 909
 kernel estimator, definition 1350
 kernel machine, definition 1523
 kernel methods, definition 1523
 kernel trick, definition 1523
 kernel, definition 566
 kernelized fuzzy c-means (KFCM) 712
 KFM, definition 1218
 KGP agents 88
 KGP model 88
 Khepera robot 821
 Kirchhoff's Laws 1357
 k-lines 331
 K-nearest neighbour (KNN) 241
 K-NN, definition 566
 knowledge based robotics, definition 608
 knowledge discovery in databases (KDD), definition 891
 knowledge discovery, definition 487
 knowledge engineering 106
 knowledge engineering, definition 540
 knowledge extraction process 483
 knowledge extraction, definition 487, 588, 939
 knowledge management systems, procedural development 975–981
 knowledge management tool, definition 988
 knowledge management, definition 535, 988
 knowledge processing 926
 knowledge reduction, definition 1403
 knowledge society 532
 knowledge visualization, definition 787
 knowledge, definition 988

knowledge-based system, definition 995
 knowledge-based system, types of 990
 knowledge-based systems 989
 Kohonen maps 996
 Kolmogorov-Sinai entropy, definition 1272
 Kripke model, definition 1093
 Kullback Leibler distance (KL-distance), definition 1257

L

labeled transition systems, definition 1093
 Lagrange multiplier, definition 676
 LAMP 1612
 language model, definition 1472
 language recognition 179
 latent semantic analysis (LSA) 1254, 1257
 latent semantic analysis, definition 1184
 lattice gas automata, definition 360
 lattice theory, neural/fuzzy computing 1238
 lattice, definition 1111, 1243
 leaf node, definition 703
 learn to learn, definition 535
 learning (training) rule, definition 1063
 learning algorithm, definition 676, 1011, 1017
 learning algorithms for recurrent networks 1412
 learning design, definition 1282
 learning domain models 1026
 learning domain-specific planners 1025
 learning machine, definition 1466
 learning objects, definition 1282
 learning process 532
 learning rule optimization 577
 learning search control 1025
 learning stage, definition 866
 learning, active 1
 learning, game-based 140
 learning, mixed active 5
 learning, RETIN active 4
 learning, supervised 282
 learning-based planning 1025
 least mean square error reconstruction (LMSER), definition 901

least squares support vector machine, definition 666
least trimmed squares estimator (LTS) 1390
least-squares algorithm, definition 742
LEGO Group 1385
LEGO MINDSTORMS robots 1385
lens distortion, definition 847
lesson learned, definition 988
levels, definition 1574
Levenberg-Marquardt algorithm, definition 939
leverage points, definition 1395
lexical processing 106
linear discriminant analysis (LDA) 367
linear equation, definition 676
linguistic similarity techniques, definition 500
linguistic term, definition 703, 727
linguistic variable, definition 703, 780
linguistic variables, definition 727
linked concepts 172
local classification 1358
local maxima finding, definition 1350
local minima, definition 1079
local navigation methods 1074
local navigation methods, definition 1079
local search, definition 602, 1196
logic of actions, definition 1094
logic of knowledge, definition 1094
logic of time, definition 1094
logic program, definition 403
logic programming 991
logistic models, definition 333
logistic regression, definition 1144
logistic representations 330
look ahead, definition 409
LSA cosine, definition 1258
LS-SVM 664
LTS algorithm 1390
LTS error function 1389
Lyapunov exponents, definition 1272
Lyapunov function, definition 1224

M

machine learning (ML) 71, 423, 554, 560, 666, 816, 823, 1567
macro-action, definition 1028

macroevolutionary algorithm, definition 608
MAGE, definition 1070
MAGE-ML, definition 1277
MAGE-OM, definition 1277
MAGE-stk, definition 1277
magnetic resonance imaging (MRI), definition 376
magnetoencephalography (MEG), definition 376
majority (gate), definition 479
Mamdani fuzzy rule-based system, definition 766
Mamdani inference method 813
Mamdani inference system, definition 766
Manhattan distance, definition 1079
many-objective problem, definition 1048
many-valued logic 1610–1614
mappings between ontologies 494
marginal belief distribution, definition 436
marked graph, definition 687
Markov Chain Monte Carlo (MCMC), definition 1488
Markov decision process, definition 830
Markov decision processes (MDPs) 825, 826
Markov process, definition 1035
Markov switching model, definition 1003
Martin, F. 1383
MAS 918
mass customization, definition 403
mass spectrometry, definition 1342
mass spectrometry, wavelet transformation in 1338
MaxCut problem, definition 1120
maximum entropy 1564
maximum entropy model (MEM), definition 1567
MaxQ 828
MDS, definition 566
medical image, definition 718
medical images 1583
Mel Feature Cepstral coefficients (MFCC), definition 795
membership function, definition 703, 709, 718, 727, 780, 802, 974, 1129
membrane computing 1174
membrane systems 1174

memory and learning 1056
memory hierarchy, definition 506
memory organization packets (MOPS) 331
Mercer's kernel, definition 1523
metacognition, definition 342
metadata, definition 1282
metaheuristic, definition 487
meta-heuristics 854
metaheuristics, definition 807, 859
meta-heuristics, definition
metric-drive design, definition 430
Metropolis-Hastings algorithm, definition 1489
MGED, definition 1070
MIAME, definition 1070, 1277
micro-array data integration 1065
micro-array data sources 1065
microarrays 65, 1277
microarrays, ontologies for 1273
microarrays, processing patterns for 1273
microstructure, definition 617
middle-agents, definition 955
minor component (MC), definition 901
minority-3 gate, definition 1480
Minority-3 Gate, definition 1561
mirror to camera positioning 842
mismatch, definition 1481, 1561
mixed active learning 5
mixture-of-expert (ME) models 318
MLP learning, stochastic approximation Monte Carlo 1482
mobile ad-hoc network, definition 595
mobile agent (MA) 1616
mobile code 1406
mobile robots localization 1072, 1080
mobile robots mapping 1072, 1080
mobile robots navigation 1072, 1080
modal analysis, definition 553
modal logics 1089
model checking problem, definition 1094
model checking, definition 1554
model checking, definition 506
model evidence, definition 1489
model functioning 379
model selection, definition 525
model-based reasoning, definition 995
modelling, definition 360

neural networks, definition 423
 neural networks, in automated negotiations 1524–1529
 neural networks, multi-objective training 1152
 neural/fuzzy computing 1238
 neural-fuzzy systems (NFS) 32
 neurocomputing, and rich dynamics 275
 neuro-fuzzy system, definition 1403
 neuro-fuzzy technology 31
 neuro-fuzzy, definition 923
 neuromorphic modeling 223
 neuron model 639
 neuron model, definition 1017
 neuron modeling 1057
 neuron, definition 1481, 1561
 neurons 1558
 neutral decision, definition 1362
 new technologies feature 534
 new technologies proposal 533
 new technologies, definition 535
 new technologies, e-learning in 532
 Neyman-Pearson detectors 934
 n-gram model, definition 1472
 NKRL inference engine, definition 1166
 NKRL inference rules, definition 1166
 NKRL templates, definition 1165
 NLP techniques 1253
 NNs, learning techniques of 1435
 node, definition 703
 Nogood, definition 513
 noise 99
 noisy test categorization 100
 noisy text 99, 105
 noisy unstructured text data I 99–104
 non-cooperative facial biometric identification systems 1259
 non-cooperative games, definition 1023
 non-cooperative identification system, definition 1265
 non-membership function, definition 974
 non-monotonic adaptive cooling 347
 non-monotonic logic 331, 333, 1041
 non-monotonic reasoning paradigm 1370
 non-rigid objects 1363
 non-rigid objects, definition 1369
 note-taking techniques 337
 NP-hard problems, definition 1023

O

OAA approach 557
 object representation, definition 1369
 object tracking, definition 1369
 objective fitness function 592
 objective function, definition 1151
 odometry, definition 1087
 off-chip training, definition 839
 off-line system, definition 1454
 off-line writer identification system 1448
 Ohm's Laws 1357
 omnidirectional camera, definition 852
 omnidirectional vision 849
 on-chip training, definition 839
 one against all (OAA) model 556
 one against all approach, definition 560
 online learning, definition 1028
 online noisy documents 99

 threshold based voting, definition 1350
 time reduction 876
 time-series prediction, definition 1158
 time-series, definition 1158
 tokenisation, definition 1054
 tomography, definition 376
 topology deformations 1366
 topology errors (TEs) 1356
 topology preservation, definition 1252
 topology preserving graph, definition 1369
 total least square (TLS) fitting, definition 901
 tracking, definition 553
 trade-off constant of SVM, definition 525
 traditional manner of study, definition 343
 traffic control 410
 traffic light control 458
 traffic sign pre-processing 555
 traffic sign recognition 554
 traffic sign recognition, ensemble of ANN 554
 traffic sign recognition, neural network system 555
 training algorithm 1417, 1218
 transaction identifier 173
 transfer function optimization 577
 transform domain system, definition 1265
 transient, definition 1231
 travelling salesman problem 1114, 1120
 tree augmented Naïve Bayes (TAN) 880
 tree pruning 438
 tree selection 438
 tree splitting 438
 tree-structured graph, definition 1054
 truth maintenance system, definition 1041
 TS algorithms 996

TSL color space, definition 1503
 TTS synthesis 788
 tumor prediction 304–311, 312–317
 two-phase hybridization 1192
 type, definition 1218

U

ubiquitous computing (UbiComp) 93
 UCE, definition 566
 UCI repository, definition 883
 ultra low power neurons 1556
 UML, definition 1135
 unbalance index, definition 1362
 unbalance indices 1357
 uncertainty, and interactive systems 963–966
 uncertainty, sources of 963
 unconditioned response (UR), definition 1204
 unconditioned stimulus (UCS), definition 1204
 under-constrained equations, definition 1350
 unifying information model (UIM) 1066
 unifying information model (UIM), definition 1071
 uniqueness, definition 676
 unit selection synthesis, definition 795
 unknown word, definition 1472
 unsuccessful negotiation threads (UNTs) 1422
 unsupervised learning, definition 463, 787, 795, 1595
 update process 1426
 update theory 1371
 update, definition 1375, 1432
 updates, roadmap of 1370

V

vague environment (VE), definition 733
 vague language, use of 992
 value iteration, definition 506
 Value Principle 466
 variable scaling 664
 variable selection 458
 variable selection approaches 583
 variable selection, definition 588, 666
 variable selection, evolutionary approaches to 581

variant SNR environments 719
 variant SNR environments, fuzzy
 logic estimator for 719
 VC dimension, definition 1523
 vector field histogram 1075
 vector symbolic architecture (VSA)
 516, 519
 version space theory 1
 VHDL, definition 839
 video image post-processing 385
 video-based face recognition 1455–
 1461
 videometrics 389
 videometrics, definition 389
 virtual and immersive environments,
 definition 540
 virtual reality, definition 1211, 1595
 virtual theatres, definition 540
 virtual, definition 535
 visual data mining 1205
 visual homing, definition 1190
 visual servoing, definition 847
 visualization methods 783
 vocabulary, definition 1473
 voice quality 1439, 1443
 voltage instability detection, using
 neural networks 1596–1602
 voltage output image processing
 1597
 von Neumann multiplexing 471
 Voronoi diagrams 12

W

wave flume 384
 wave flume experiments 383
 wave reflection at submerged break-
 waters 1603
 wavelet analysis, definition 1342
 wavelet transformation, mass spec-
 trometry 1338
 weak irrelevance of syntax (WIS)
 1373
 weak irrelevance of syntax, definition
 1375, 1432
 weak negation 1610
 wedgelet 223
 weight, definition 1011, 1017
 weighted clustering 592
 weights, evolution of 126
 Weka, definition 560
 wireframe model, definition 631
 wireless sensor networks (WSNs),
 genetic algorithms 755
 wireless sensor networks, definition
 758
 wireless sensor networks, genetic
 algorithms 756
 WoLF, definition 824
 word matching 1254
 word matching (WM), definition
 1258
 word-braker, definition 660
 WordNet 335

WordNet, definition 336
 Workflow Management Coalition
 (WFMC) 1615
 workflow management, based on
 mobile agent technology
 1615–1623
 World Health Organization(WHO)
 1589
 wrapper algorithm 635
 wrapper method, definition 638
 wrapper methods 635
 writer identification, definition 1454
 writer's off-line identification 1447
 WSNs, specific parameters 756

X

XML-RPC 1612

Y

Yellow Page, definition
 Yellow Pages 983, 988
 yield, definition 1481, 1561
