### VENDOR SITES FOR DOCUMENT, CONTENT, AND ASSOCIATED SOFTWARE

The following site information has been compiled in good faith by the authors as a reference for readers. It is intended to provide referral information only. We do not claim that this list is conclusive and do not give any representation as to the accuracy, reliability, completeness, or timeliness of the information that is provided at the sites.

Sites that provide directories for content, document and records management software include the following:

- *Open Directory Project* at:

- *Yahoo* at:

We avoided categorizing the software into records, document or content management because of the overlapping functionality of many products.
