

# Acknowledgments

Many people have contributed to the successful completion of this book and we wish to express them our deepest appreciation. We are very grateful to the authors of this book for contributing their excellent works and to the reviewers for providing high-quality, constructive comments and helpful suggestions. Moreover, we would like to thank all the staff at Idea Group Publishing, and particularly Mehdi Khosrow-Pour, Jan Travers and Michele Rossi for their invaluable assistance. In addition, we would like to acknowledge the support of several colleagues at Brunel University and the University of Athens, who have worked with us during the last four years.

Last but not least, this book would have been impossible without constant support, patience and love from our families.
