3C Test 225

A

a priori 86
Abbey Group 53
Abbey National 52
Abou-Zeid 183
absorptive capacity 25
action alignment model 225
adaptive learning 25
advanced skills 25, 27
analytical knowledge management 178
anaphora 50
anti-positivism 98
Arora 154
asset management 178
autonomy 42, 48

B

balanced score card 156
Balasubramanian, Kumar, Henderson, &
Kwan 174
basic mastery 25
Bhatt 143
Binny 177
Bolloju, Khalifa, & Turban 190
bottom-line improvements 43
boundary location 65
Bower & Heminger 209
business management 27

business organisations 78
business process re-engineering 146

C

Carneiro 196
clarity 127
coal-mining 39
coal-mining industry 38
cognitive knowledge 25, 27
collaboration 13
communication 19, 29, 50
communicative action 42
communities 50
communities of practice (CoPs) 33, 49
compatibility 64
competence creation 194
competitiveness 43
complexity 79
confirmability 124
Connell, Klein, Loebbecke, & Powell
141
contextual interpretation 21
continual learning 13
control 188
coordination 188
CoP development 50
Copernican Revolution 88
costs of information technology 34
credibility 124
critical complementarist approach 109
critical migration paths 171
critical philosophy 91

critical pluralism 113
 critical social theory (CSoT) 76, 96,
 103
 critical systems approach 106
 critical systems thinking (CST) 104

D

De Gooijer 216
 decision-making 13, 33
 deitic utterances 50
 Deming measurement model 165
 dependability 124
 dependency diagrams 187
 deployment of people 3
 development and testing 126
 development and testing/clarity 131
 development and testing/empirical work
 132
 development and testing/explicitly
 stated 131
 development and testing/reasoning 132
 development and testing/theory 132
 developmental knowledge management
 178
 diversity management 111
 do/contract decision process 225
 Duru Ahanotu 162

E

ellipses 50
 email systems 64
 empirical underpinning 128
 employee bases 34
 empowerment 42
 epistemology 94, 98
 Escriba-Esteve & Urra-Urbieta 203
 European Commission (EC) 27
 exchanges of views 42
 experiential learning 54
 experimental knowledge 225
 expert experience 16
 explicit distinction 135
 explicit information 16
 explicit knowledge 93, 212
 explicitness 127
 external capital 28

external reality 99
 external validity 124

F

face-to-face communication 42
 false consciousness 101
 feedback 48
 feedback loop 8
 feedback mechanisms 3
 financial cost 238
 Firestone 160
 freedom of speech 42
 functionalist organisation theory 100
 functionalist paradigm 100

G

gaining power 42
 Gao, Li, & Nakamori 137
 general interest focused 53
 generative learning 25
 generic review grid 125
 goods and services 34
 Greek philosophy 86
 grid 125
 group norms 48
 groups 48

H

Hatten & Rosenthal 224
 History of the Sociotechnical Movement
 37
 Hlupic, Pouloudi, & Rzevski 146
 human activity 78
 human activity lens 80
 human activity systems 79
 human being 138
 human capital 28
 human resource management 17
 humanistic welfare paradigm 42

I

ICT-supported strategies 50
 identity 48
 improved competitiveness 3
 improved performance 3

incentives systems 238
incompletion 66
individual knowledge 21
infoculture 57
information flow 65
information management 96
information system 31
information technology 32, 212
infostructure 57
infrastructure 56
initial review 122
initial search 122
initiation 207
initiation stage 206
innovation 13
innovation/creation knowledge management 178
insight 13
intangible assets 28
intangible products 4
integration 207
integration stage 206
intellectual capital (IC) 26, 27, 28, 47
intellectual capital systems 194
intellectual content 21
intelligence 188
intelligent tasks 13
internal validity 124
interpretative paradigm 100

J

joint problem solving 42
Joshi 214

K

Kamara, Chimay, & Carrillo 170
Kantian Critical Philosophy 87
key objectives 121
keywords 122
know-how 8
know-that 9
know-when 9
know-where 9
know-who 9
know-why 9
knowledge 16, 33

knowledge acquisition 8, 80, 201
knowledge capital 28
knowledge construction 181
knowledge creation 7, 19, 201
knowledge dimensions guide 172
knowledge dissemination 181
knowledge distribution 201
knowledge domains 187
knowledge economy 6
knowledge embodiment 181
knowledge identification 8
knowledge ignition process 226
knowledge ladder 51
knowledge management (KM) 2, 10, 12, 14, 18, 19, 22, 23, 27, 31, 52, 54, 60, 76, 80, 82, 96, 100, 120
knowledge management activities 126
knowledge management activities/ clarity 131
knowledge management activities/ explicitness 130
knowledge management activities/ reasoning 131
knowledge management activities/ theory 131
knowledge management annual conference 18
knowledge management consultation system (KMCS) 141
knowledge management frameworks 120
knowledge management literature 146
knowledge management map 217
knowledge management problem 171
knowledge management process 126
knowledge management process model 172
knowledge management process/clarity 130
knowledge management process/ empirical work 130
knowledge management process/ explicitness 129
knowledge management process/ reasoning 130

knowledge management process/theory 130
 knowledge management processes 171
 knowledge management reference model (KMRM) 183
 knowledge management role 212
 knowledge management software 237
 knowledge management support system (KMSS) 183
 knowledge management systems 79
 knowledge mapping 194
 knowledge mill 176
 knowledge process 6, 187
 knowledge refinery 212
 knowledge retention 7, 201
 knowledge sharing 7, 13, 19, 22, 32, 51
 knowledge targets 8
 knowledge through teamwork and learning 22
 knowledge torch 51
 knowledge use 181
 knowledge utilisation 8
 knowledge workers 60
 KPMG report 61
 Kwan & Balasubramanian 222
 Kwang, Pervaiz, & Mohamed 219

L

learning organisations 23
 learning processes 204
 lecture 31
 Lee & Kim 205
 linguistic idiosyncrasies 50

M

managerial paradigm 43
 managing intellect 27
 managing knowledge 28, 59
 McAdam & Reid 180
 mental models 24
 Merali 167
 minimal critical specification 64
 monitoring 3
 Mullich 132

multi-skilling 38
 multifunction principle 65

N

networking 207
 networking stage 206
 Newman & Conrad 151
 nominalism 98
 normative understanding 95

O

objectivity 124
 oneTeam 53
 ongoing dialogues 238
 organisation change 194
 organisational knowledge creation 19
 organisational knowledge system 138
 organisational memory 21
 organisational primary activities 188

P

pace of change 34
 paradigm incommensurability 108
 participation 42
 performance metrics 226
 personal knowledge 138
 personal mastery 24, 25
 Pervaiz, Kwang, & Mohamed 165
 philosophy 31
 physical systems 79
 planning 3
 policy 188
 positivism 98
 power and authority 65
 pragmatic pluralism 113
 pre-critical philosophy 86
 problem definition template (PDT) 172
 process-based knowledge management 178
 profit sharing 238
 propagation 207
 propagation stage 206
 purpose/clarity 128
 purpose/empirical work 129
 purpose/explicitness 128

purpose/reasoning 129
purpose/theoretical underpinning 129

Q

Quinn's typology of knowledge 25

R

radical humanism 101
radical structuralist paradigm 101
radical thinkers 100
rational consensus 42
realism 97
reasoning 127
relationship enactment 168
relationship scripts 168
reliability 124
representation 42
research and development (R&D) 7
rewards 238
Robertson 135
ROI (return on investment) 60

S

scheduling 3
schema 168
scientism 91
self-actualisation 42
self-concept 168
self-managing teams 47
self-motivated creativity 25, 27
self-regulating groups 48
semi-autonomous groups 33
sensemaking 217
shared culture 50
shared knowledge 21
shared understanding 50
shared vision 24
shareholder value 43
significance 48
Snowden 193
social networks 51
social structure 38
social systems 82, 102
social theory 31
societal constraints 3

sociotechnical change methods 43
sociotechnical design 58
sociotechnical design approach 37
sociotechnical movement 33, 37
sociotechnical organisation 33
sociotechnical perspective 59
sociotechnical systems (STSs) 31, 61
sociotechnical theory 33
sociotechnical thinking 31, 56
sociotechnical view 46
sociotechnology 33, 35
staff appointments 238
staff unrest 238
story telling 21
strategic management agenda 28
strategic stretch test 225
structural capital 28
structure of organisation 34
subjective understanding 95
support congruence 65
support technology 53
system of measures of achievements 238
system understanding 27
systematic organisation 3
systematic review 122
systems thinking 24, 76, 81
systems understanding 25

T

tacit knowledge 93
tangible products 4
task focused 53
Tavistock Institute 37
telling stories 32
theory 127
total quality management 146
total systems intervention (TSI) 108
traditional accounting procedures 28
trained intuition 27
transactional knowledge management 178
transferability 124
transformational learning 26
transitional organisation 66
triviality criteria 122

U

understanding 33
upgrades of staff machines 237

V

variance control 65
variety 48
viable system model (VSM) 187

W

working environment 52
workplace stress 42

X

Xerox case study 67

Z

Zack 212
