

Index

A

active fingerprinting 161
amplitude modification 89
audio restoration attack 101
audio watermarking 75, 164
authentication 233

B

bit error rate (BER) 100, 129
bit rate 129
bitstream watermarks 85
Boneh-Shaw fingerprint scheme 161
boundary modifications 239
broadcast monitoring 86

C

character features 240
character shifting 236
coalition attack secure fingerprinting 158
collusion attack 103
collusion secure fingerprinting 158
compressed domain watermarking 147
computational complexity 130

content authentication 87
contrast masking 54
contrast masking model 50
contrast sensitivity function 50
copy prevention 233
copyright owner identification 86
copyright protection 3
covert communication 88
customer identification 158

D

data hiding 48, 231
digital data 2
digital images 182
digital intellectual property 2
digital rights management (DRM) 128, 234
digital signal quality 2
digital signature-based image authentication 207
digital watermarking 1, 162, 232
digital watermarking application 7
Dither watermarking 90

E

e-commerce 1
e-fulfillment 3
e-operations 3
e-tailing 3
echo hiding 136

F

false positive rate (FPR) 106
fingerprinting 85, 233
fragile watermarks 85

H

half-toned images 241
head related transfer function 107
human auditory system (HAS) 107,
130
human visual system (HVS) 50, 207

I

image authentication 173
information systems (IS) 2
intellectual property 1
invertibility attack 101
invisible watermarks 6
iso-frequency masking 55

J

just noticeable contrast (JNC) 52

L

labeling-based techniques 208
low bit coding 132

M

mask building 65
masking 54
media signals 1
metadata binding 234
multimedia authentication system 176
music industry 76

N

non-iso-frequency masking 57
non-strict authentication 214

O

ownership assertion 233

P

PCM audio 132
perceptible watermarks 85
perceptual audio quality measure
(PAQM) 128
perceptual masking 137
perceptual phenomena 108
phase coding 133
proof of ownership 87

R

robust digital signature 179
robust watermarking scheme 14
robust watermarks 85
run-length 241

S

Schwenk fingerprint scheme 161
secret keys 84
security 14, 130
signal diminishment attacks 103
signal processing operations 104
signal-to-noise ratio (SNR) 128
spread spectrum coding 134
steganography 4, 232
still images 48
strict authentication 210

T

transactional watermarks 87

V

video watermarking 165
visible watermarks 6

W

- watermark embedding 8, 60
- watermark extraction scheme 146
- watermarking 77, 182
- watermarking algorithms 163
- watermarking classification 7
