

Acknowledgments

The editors would like to acknowledge the support provided by Thomas Ruddy, EMPA, who commented on many of the chapters and contributed to this book by extensive discussions with authors and the editors. Therese Bracher and Daniela Hofstetter at EMPA managed the whole process of collecting and editing the book chapters and solved the huge amount of small problems that regularly occur in a large publication project.

Special thanks go to all the authors who provided their chapters early considering the long time it takes to assemble a book of this size. The reviewers provided substantially to the quality of this book by commenting on early drafts.

We also wish to thank the publishing team at Idea Group Inc. In particular to Mehdi Khosrow-Pour, Amanda Phillips, Michele Rossi, Jennifer Sundstrom, and Jan Travers, without whose support the book could not have been satisfactorily completed.
