

Acknowledgments

The editor would like to acknowledge the help of all involved in the collation and review process of the book, without whose support the project could not have been satisfactorily completed.

Most of the authors of chapters included in this book also served as referees for papers written by other authors. Thanks go to all those who provided constructive and comprehensive reviews.

A special note of thanks goes to all the staff at Idea Group Publishing, whose contributions throughout the whole process, from inception of the initial idea to final publication, have been invaluable.

Special thanks go to the publishing team at Idea Group Publishing. In particular to Mehdi Khosrow-Pour, whose enthusiasm motivated me to initially accept his invitation for taking on this project, and to Michele Rossi, who continuously prodded via e-mail to keep the project on schedule.

In closing, I wish to thank all of the authors for their insights and excellent contributions to this book. I also want to thank all of the people who assisted in the reviewing process. In addition, this book would not have been possible without the ongoing professional support from Mehdi Khosrow-Pour and Jan Travers at Idea Group Publishing.
