

Acknowledgments

First and foremost, the editors would like to acknowledge the individual authors who decided to share their thoughts and experiences in this book. The insight and acumen shown by the contributory authors is one of the best that we could find internationally. The effort in putting together the chapters is a phenomenal exercise that is deeply appreciated by the editors. Furthermore, a number of friends and colleagues helped review the chapters and pass on invaluable comments and constructive criticisms. Their help is specifically acknowledged.

Special thanks also go to the publishing team at Idea Group Inc. In particular, thanks to Michele Rossi, who continuously prodded via e-mail to keep the project on schedule, and to Mehdi Khosrow-Pour, whose enthusiasm motivated us initially to accept his invitation for taking on this project.

Finally, we would like to give special thanks to our families for their love and support to enable us to complete this project. YL: Thanks to my wife Anna, my children Bruce and Emily, and also my father Wen-hsiung and mother Su-chen for their moral support. BU: Thanks to my wife Asha, daughter Sonki Priyadarshini, and son Keshav Raja, as well as my extended family Girish and Chinar Mamdapur for all their support.
