Index

A

agent-based distillation 5, 19, 50
agent-based simulation 50
attack distribution 96
attraction-repulsion weighting system 52
autocorrelation 55

B

Bali bombing 210
base transmission station 170
Bayesian network 119
belief desire intention 5
belief revision 226
belief systems 222
biological warfare 181
biological attacks 11
biological terrorism 11
biowar 11
bushfires 2

C

cascading failure 83
cellular automata 4
central analyzer and controller 118
centralized attack 90
chemical warfare 181
common intrusion detection framework 114
communications networks 82
complex adaptive system 19, 48
complex systems 2, 18, 222
computer game 139
computer security 107
counter terrorism 221
course of action 30

D

data farming 83
data mining 112, 176
defense intelligence 169
density-basin information 56
disasters 2

E

embodied cognition 5
enhanced ISAAC neural simulation toolkit 6
entropy 55
epidemics 2
ethics 222
evolutionary computation 47
evolutionary multi-objective optimization 72
expert systems 112

F

fitness landscape 53, 84

G

geographic information systems 173, 196
geospatial intelligence 186
global positioning system 170
graph theory 85

H

hazards 2
historical data 80
human-based red teaming 47

I

information content 56
information management system 175
information stability 56
intelligent agents 115
intrusion detection system 107
irreducible semi-autonomous adaptive combat (ISAAC) 6

L

Lanchester equations 6, 48

M

map aware non-uniform automata (MANA) 6
Markov blanket 119
metrics 85
misuse detection 110
mobile location centre 175
mobile networks 174
multi-agent systems 50
multi-objective analysis 72

N

network centric warfare 158, 175
network intrusion detection 115
nuclear attack 11
nuclear warfare 181

O

operations analysis 21

P

Pareto-front 74
partial information content 56
POWER planning framework 241
Project Albert 21

R

radio-frequency identification 172
random attack 91
random walk on 56
red teaming 46
risk management techniques 2
