

Acknowledgments

I would like to first and foremost, thank God for the moments of insight that illuminated this path toward knowledge.

I would also like to thank each and every author and contributor to this work, whom I constantly bugged with my frequent e-mails and nagging to keep the process going. Without your patience and hard work we would not have come to reap the fruits of our labor.

I also would like to thank those who took the time to review the chapters in this book whether they were from the contributors or just reviewers whose sole purpose was to participate in the success of this work. From the latter group, may I thank in particular Ali Khan, Amjad Mahmood, Gamal Kassem, Kirtsten Ellis, Kostadin Kratchar, Mansour Al Aali, and Mencar Corrado.

Final words of thanks go to my supervisor Professor Keith Stenning who helped start off the initial sparks of insight that led to this work.

*If the words that are said,
lead you to be impressed,
Then pray thee do not be led,
to believe they show,
Anything that I know,
For God taught me all I said.
