A

Administration-to-Administration (A2A) 117
 Administration-to-Business (A2B) 117
 Administration-to-Citizens (A2C) 117
 analytical customer relationship management (aCRM) 169
 Application Service Providers (ASP) 198
 Artificial Intelligence (AI) 306
 attitudes, interests, and opinions (AIOs) 316-317
 attribute-value pairs (AV-pair) 99
 authority figure 32
 average quantile values (AQV) 187

B

B2B marketing 61
 BIRCH (Balanced Iterative Reducing and Clustering using Hierarchies) algorithm 92, 96, 100, 103-104, 111
 Business Analytics 169

C

CACTUS algorithm 99
 centroid matrices 96
 centroid outside view 108
 Chief Web Officer (CWO) 200
 CLARANS (Clustering Large Applications based on Random Search) 100
 classical data warehouse 217-219, 223, 226, 230-231, 234, 236-237, 239-240, 242-243, 248-249
 class membership attribute (CMA) 225, 227, 229, 233-234, 245
 CLICKS algorithm 98
 Clickstream 112, 258, 269
 cluster visualization 114
 commercial advertisements 45
 Common Object Request Broker Architecture (CORBA) 153

comparison testing 63, 65
 computing with words (CWW) 161, 193, 208
 conceptual model validity 64
 congested nodes 27
 Content-Management-Systems (CMS) 105
 controlling loop 10, 193, 198-200
 CORD (Clustering of Ordinal Data) 91-92
 crisp sets 2
 crystalline silicon on glass (CSG) 66
 customer equity 1-2, 7, 9, 11-14, 252-257, 268-269
 Customer Lifetime Value (CLV) 266-267
 customer relationship management 9

D

data validity 64
 deviation analysis 9
 digital value chain 13, 164, 195, 204, 213
 digraphs 31

E

econometrics 42, 59
 economic order quantity (EOQ) 272
 electronic Customer Relationship Management (eCRM) 197
 endogenous variable 59
 environmental munificence 75
 executable model 63, 74, 83
 eXtensible Markup Language (XML) 155

F

face validity process 64
 filterbots 117
 First Rater Problem 116
 Framework for Intelligent Social Network Analysis (FISNA) 16, 18
 friend of a friend (FOAF) 157
 FRS prototype (FRSP) 130

Index

fuzzy OLAP cube 221, 250
fuzzy optimization 289
fuzzy profile (FP) 125
fuzzy recommender system (FRS) 117
fuzzy-rule based system (FRBS) 71, 74
fuzzy rules 75, 77, 80, 173-175, 189, 191
fuzzy segmentation 4, 291-292, 295, 299, 301-304, 306, 308
fuzzy self-organizing maps (FSOMs) 163
fuzzy set extension 92
fuzzy sets 2, 124, 205, 255
fuzzy set theory 5, 18
fuzzy set theory models 61-62, 71, 80
fuzzy subset 17, 21-27, 29-30, 32-34, 36-37, 174
fuzzy target groups 168, 174, 179, 181, 189
fuzzy teenager set 3

G

game theory 42, 57, 287
generalized linear model (GLM) 48, 59
GKA algorithm 98
GKMODE 98
granular computing 16-18, 21, 38-40
graph theory 18
group composition 44-46, 48, 50, 52, 55-56

Gugubarra Analyzer 105-106, 108-109, 111
Gugubarra Designer 105
Gugubarra Framework 91-93, 105

H

hierarchical fuzzy classification 9, 14, 252, 259-261, 268
holistic marketing 2
Hybrid Systems 100
Hyperlink-Induced Topic Search (HITS) algorithm 148

I

individual viewerships 45-46, 48, 50, 55, 60
inductive attribute fuzzification (IAF) 178, 184, 191
inductive fuzzy classification 10, 13, 168-170, 174-178, 181-182, 185, 187, 190-191, 193, 206-207, 213
inductive fuzzy classification based on normalized likelihood ratios (IFC-NLR) 175
inductive fuzzy classification (IFC) 169, 174-175, 191, 206
integrated analytics 172, 174, 181
Interactive Visualization 144-145, 156, 161-162, 166
intuitive visualization 169
isomorphism 5, 19

J

joint pricing and lot sizing model (JPLM) 272

K

Key Performance Indicators (KPIs) 193-194
k-Modes algorithm 92, 95, 98, 100-102, 104, 111-112
knowledge uniqueness 75

L

LAMDA algorithm 297, 299
linguistic quantifiers 22, 30
linguistic values 21-22, 289
linguistic variables 5

M

management science 42, 81, 286, 288, 311
market gurus (MGs) 312
Market mavens (MMs) 312-313

market segmentation 286, 292-295, 299, 304, 307, 309-311
 mass customization 8
 mass-observation 44
 mathematical graph theory 18, 21
 membership degree attribute (MDA) 226, 233, 245
 membership function induction (MFI) 179, 184, 191
 memory-based collaborative filtering algorithms 116
 microblogging 157-158
 MMR algorithm 98
 model-based collaborative filtering algorithms 117
 model validation 64
 multibehavioural segmentation 300, 311
 multidimensional scaling (MDS) 75
 multifaceted consumer 292, 299, 301, 311

N

NCSOM algorithm 97, 101, 104
 neighborhood formation 116
 neuromarketing 293
 Newton-Gauss method 48
 node importance 22
 non-hierarchical cluster analysis 301
 non-obvious user profiles (NOPs) 93
 normalized likelihood difference (NLD) 176, 179, 191
 normalized likelihood ratio (NLR) 175, 177, 179, 191
 number of equivalent viewers (NEV) 46, 60

O

online reputation management (ORM) 145
 ontology adaptor 148-149, 151, 158
 Ontology Editors (OE) 153
 Ontology Storage (OS) 153
 operational validity 64, 71, 77-78, 80, 83
 OWA operator 30, 34

P

particle swarm optimization (PSO) 271, 274, 282, 286
 photovoltaic (PV) solar cells 66
 political controlling 119
 predictive accuracy 169
 predictive validation 65
 principal component analysis (PCA) 128
 Property-space analysis 315, 317
 prosumers 139

psychographics 52, 60
 public memory 119, 135

Q

quantitative decision support 168-169, 183, 191
 quasi-likelihood (QL) semi-parametric method 48

R

really simple syndication (RSS) 157
 recommendation target 119, 123, 125, 130
 recommender systems 9-10, 14, 100, 112, 115-117, 119, 123, 130, 137, 148
 relevance filtering 169
 reputation analysis engine (RAE) 140, 147, 156
 Resource Description Framework (RDF) 156
 return on inventory investment (ROII) 271, 273-274
 return on investment (ROI) 197, 272
 risk management 12, 170, 253
 ROCK algorithm 99
 rough set concept 98
 Rule Interchange Format (RIF) 158

S

Sammon Mapping 127-128, 130-131, 135
 scale of interest view 107, 110
 Search Engine Marketing (SEM) 195
 Search Engine Optimization (SEO) 146, 195
 Self-Organized Map (SOM) algorithm 97
 sensitivity analysis 64-65, 80
 sharp classification 204-205, 208, 211-212, 243, 253, 256-257
 simuland 62-66, 78, 83
 smartvote 115, 119
 Snowflake schema 220
 social choice theory 42
 social identity theory 43, 58
 social media monitoring 12
 social network database theory 38
 social network theory 18, 38
 social psychology 42-43, 58-59
 social relational network analysis 17
 Social Semantic Web 143, 145, 161, 163, 166-167
 social software 141
 Social Web 139, 141
 Software as a Service (SaaS) 198
 Soundex algorithm 149, 162
 Star Schema 220
 state dependence 48, 50, 55-56, 60
 STIRR algorithm 99
