

## Acknowledgment

The editors of this Volume would like to express our gratitude to the numerous people who have been involved in putting together this book. First of all we wish to thank all the distinguished contributing scholars who have provided us with so many hours of interesting reading and thought provocations. An additional thanks to the members of the Local Editorial Board, who have supported reviews of the contributions. We are also grateful to Linnaeus University who have afforded necessary support for carrying through this work. In this aspect we are deeply grateful to Miranda Kajtazi and Gunn Jensen who have worked so hard with the tedious work of reviewing and editing to get everything into the same format and see to that all details are there and in appropriate order. Finally, we also wish to thank IGI Global for their support and guidance.
