

## Acknowledgment

A number of individuals provided support to us in completion of this book. These include research assistants Ying Zhang, who helped with analysis of the questionnaire data presented in Chapter 7, Ahmad Khanlari, who completed literature searches and Sylvester Asmah Boadi who compiled the references. Thank you to Claire Wilkshire for her expert proofreading. Thank you as well to Ms. Carolyn Lono, who also worked on the reference lists. We are grateful to the international students who participated in our two studies. We would also like to thank those at IGI Global, such as Jan Travers, who assisted with the initial review of our book proposal. Thank you especially to Monica Specca, who kept us on schedule and who answered our many questions along the way. Finally, we are grateful to the two external reviewers for their valuable suggestions for improvements.
