

# Index

## A

- action planning phase 89
- action research study 88
- action taking phase 89
- administrative coordination 136
- advanced manufacturing technologies (AMT) 16
- alignment framework 28
- American Hospital Supply Corporation's (AHSC) 102
- analytic systems automatic purchasing (ASAP) 102
- Application service providers (ASPs) 116, 160
- ASP enablers 119
- ASP organizing vision 163
- ASP paradigm 162
- authoritative communication 136
- authorization mechanisms 204

## B

- Bain type competition model 132
- balanced scorecard collaborative 175
- behavioral theory of the firm 133
- bilateral institutionalized practices 208
- binary relationships 10
- breadth in measurement 177
- business intelligence 21
- business metrics 175
- business strategy 50

- business to business (B2B) electronic commerce 200
- business-IT alignment 50
- business-to-business (B2B) 107
- business-to-consumer (B2C) 106, 107

## C

- categorization 66
- choosing mode 88, 94
- CIM implementation 21
- client-side know-what 162
- cognitive categorization theory 66
- cognitive mapping 64
- cognitive theories 50
- communication quality 9
- comparing mode 88, 93
- competence building 142
- competence leveraging 142
- competitive IT orientation 99
- competitive locus 141
- competitive marketplace 97
- competitive strategies 109
- competitive strategy 98
- computer numerically-controlled (CNC) machines 16
- computer-aided design and manufacturing (CAD/CAM) 16
- computer-aided process planning (CAPP) 16
- computer-integrated manufacturing (CIM) 16

consolidation 126  
 constructive alternativism 64  
 corollary 65  
 corporate span 141  
 cost reductions 152  
 critical decision areas 187  
 critical success factors (CSF) 187  
 CRM outsourcing 149  
 CRM outsourcing framework 153  
 CRM outsourcing success 154  
 CRM vendor 155  
 cross-cultural management disciplines 248  
 cross-functional integration 21  
 customer relationship management (CRM) 150

## D

decision support systems (DSS) 170  
 design features of telework 2  
 designing mode 87  
 diagnosing step 89  
 direct participation 81  
 distributive project teams 2  
 dynamic double-loop learning 143  
 dynamic single loop learning 142

## E

e-commerce 150  
 electricity sourcing 82  
 encryption mechanisms 204  
 energy trader specialists 81  
 enhanced competitive position 17  
 enterprise ASPs 119  
 enterprise resource planning (ERP) 16, 152, 194  
 evaluation phase 89

## F

fit as covariation 5  
 fit as gestalts 5  
 fit as matching 4  
 fit as mediation 5  
 fit as profile deviation 6  
 fit concept 4  
 five dimensions of IT strategy 97

flexible manufacturing systems (FMS) 16  
 focused factory 18  
 framework 96  
 full service providers (FSP) 119  
 function-based systems structuring 29  
 fundamental postulate 65

## G

gestalts 5

## H

hierarchical level 32  
 horizontal ASPs 119

## I

imitability 140  
 improved strategic flexibility 17  
 individuality corollary 65  
 industrial economics 133  
 industrial organization (IO) 134  
 information and communications technology (ICT) 74  
 Information Resources Management (IRM) 130  
 information system (IS) 16, 50, 242  
 information systems strategic planning (ISSP) 226  
 information technology (IT) 14, 50, 143, 186  
 information technology strategic alignment 186  
 institutional trust 200  
 integration mechanisms 231  
 intellectual skills 20  
 international management 248  
 interorganizational trust 201  
 IS architecture 29  
 IS outsourcing 151  
 IS performance 232  
 IS-architecture alignment 31  
 IS-architecture work 29  
 ISSP-business strategic planning 226  
 IT architecture 74  
 IT governance 161  
 IT infrastructure perspective 191

IT investment metrics 171  
 IT organizational infrastructure perspective 191  
 IT outsourcing 161  
 IT strategic impacts 186

## K

Kepner-Tregoe method 170  
 know-what uncertainties 162

## L

learning-by-doing 141  
 Line service providers (LNSPs) 82  
 local productivity gains 19

## M

management information systems (MIS) 15, 170  
 managerial cognition 50  
 manufacturing enterprise 14  
 manufacturing globalization 18  
 maximum enterprise integration 14  
 McFarlan's grid 230  
 meter providers (MP) 82  
 metering data agents (MDA) 82  
 metrics of business and management performance 173  
 micro-economic theory 131  
 multinational organizations 244

## N

national electricity market (NEM) 81  
 national electricity marketing and management (NEMMCO) 82  
 neoclassical theory 132

## O

office automation systems 15  
 online consumers 216  
 OPEN modelling language 35  
 operational benefits of IT 17  
 organisation units 38  
 organisational metatype 30  
 organisational structure 31

organization-unique motivation 3  
 organizational infrastructure perspective 191  
 organizational structure 19  
 organizational-level forces 2  
 organizations 2  
 organizing vision 163  
 outsourcing firm 149, 156

## P

particular transaction 204  
 partnership quality 149  
 personal construct theory 64  
 petal 32  
 pilot-tested questionnaire 232  
 Poincaré's intuition 170  
 primary strategic resource 97  
 product development operational model (PDOM) 81  
 productivity paradox 187  
 profile 216  
 pure play ASPs 119

## Q

quality of service 155

## R

range corollary 65  
 rareness 140  
 representation framework 28  
 resource-based theory 129  
 resource-based view of the firm 136  
 resource-dependency theory 153  
 return on investment (ROI) 171  
 risk 96

## S

shaping mode 87  
 situational normality 200  
 social cognitive theory 66  
 social exchange theory 153  
 South African online consumer 216  
 specific learning phase 89  
 strategic alignment model (SAM) 56, 189

strategic benefits of IT 17  
 strategic choice method 86  
 strategic grid 188, 229  
 strategic information systems (SIS) 16  
 strategic information systems planning (SISP) 227  
 strategic IT portfolios 96  
 strategic justification 19  
 strategic management 14  
 strategic mode 99, 110  
 strategic orientation 58, 110  
 strategic resource 109  
 strategic target 99, 110  
 strategy-making behavior 233  
 structural assurances 203  
 supply chain management (SCM) 15  
 supply chain operations reference (SCOR) 180  
 supportive organizational arrangements 140  
 systems development life cycle (SDLC) 81  
 systems integration 21

## T

task-technology fit 8  
 technology trust 204, 207  
 telecommunications (TC) 143  
 telecommunications organization (TEL) 74, 79  
 telework effectiveness 2  
 temporal dominance 141  
 third-party Institutions 208  
 third-party technology Trust 208  
 total cost of ownership (TCO) 117  
 trading partner trust 207  
 transaction cost theory 135, 153

## U

uncertainties in related decision fields (UR) 94  
 uncertainties in the working environment (UE) 93

## V

value 140  
 vertical ASPs 119  
 verticalisation 126  
 virtual process 1  
 visual card sort technique 66

## W

Webchek 217  
 work design 20  
 worker characteristics 2
