

Acknowledgments

The editor would like to acknowledge the help of all involved in the collaboration and review process of the book, without whose support and assistance this project could not have been satisfactorily completed. Putting together a book of this magnitude requires a tremendous cooperation and assistance by everyone involved. Respectively, I would like to express my sincere gratitude to all the contributors of the book. A further special note of thanks goes also to all the staff at IRM Press whose contributions throughout the whole process from inception of the initial idea to final publication have been invaluable. In particular, I would like to thank Amanda Appicello who kept the project on schedule and to Mehdi Khosrow-Pour whose enthusiasm motivated me to initially accept his invitation to take on this project. I would also like to acknowledge most of the authors of the book chapters included in this book who also served as subject matter experts for chapters written by other authors. Thanks go to all those who provided constructive and comprehensive reviews. In closing, I wish to thank my family for their love and support throughout this project.
