3-tier architecture 114
4-tier architecture 114

A

academic institutions 167
active learning 168
activity view 113
Ad Hoc Virtual Teams 215
advertising on the Internet 262
affordable cost 172
agenda 278
alignment 143
alignment process 142
analysis process 208
annual general meetings (AGMs) 212
asset view 113
asynchronous 79
automated self-paced tutorial session 177
automatic speech recognition (ASR) 117

B

bandwidth limitation 169
behavioral scientists 82
bibbling 155, 158
Blueprint 231
brainstorming 155, 158, 159
buzzword 167

C

campus life 171
campus lifestyle 169
car systems 283
case study organisations 246
Causal Agency Theory 35
cellular phones 283
centralized data-server-tier 114
change agents 228
cognitive mechanisms 88
cognitive tools 281
collaborating multi-user agents 154
collaboration 1, 45, 106, 174
collaboration scenarios 158
collaboration support systems 1
collaboration technology 24, 63, 121, 126, 141, 142, 143
collaboration technology adoption 141
collaborative applications 83, 85
collaborative environment 168
collaborative flexible learning 169
collaborative flexible learning environment 167
collaborative information exchanges 155
collaborative learning approach 168
collaborative learning environment 175
collaborative organizations 83
COllaborative SYstems (COSY) 112, 113
collaborative team learning 170
collaborative technology and group perspective 219
collaborative tool 120, 122
collaborative work systems 82
communication fidelity 60
communication genre 207
communication interactions 77
communicative purpose 205
competitive advantage 181, 189
competitive business environment 181
competitive environment 185
competitiveness 50, 53
complementary assets 183
computer support 73
computer-mediated inter-organizational knowledge-sharing 120
computer-mediated interaction 80

computer-mediated nature 123
computer-mediated technology 120
conceptual linkages 24
conceptualization 277
conference participants 235
confidentiality constraints 159
consultation 155, 159
consultation scenarios 158
content analysis 25
context-rich information 123
continual learning 37
Coordination Theory 33
core competencies 181
COSY 113
course delivery 174
course material 170
cross-functional team 7
CSCW (Computer-Supported Cooperative Work) 143, 281
curriculum 168

D

data analysis 8
data collection 126
data communication 147
data exchanges 59
decision issues 89
degree of virtuality 66
delivery mode 168
departmentalization 64
direct instruction 156
distributed computer-supported groups 79
document agents 156
Doppler radars 106
Double Loop Learning Theory 31
driving force 141

E

e-mail conferencing 66
economic order 52
educational theory 107
effectiveness 50
efficiency 50
efficiency effects 67
electronic collaboration 3
electronic meeting system (EMS) 203
end-user participation 82
Expectancy Theory 34
extended client-tier 114
extraordinary general meetings (EGMs) 212

F

feedback 169
finger print device 177
flexibility 168, 185
flexible delivery 170
flexible learning 167
flexible learning environments 169
focus groups 229
formal interviewing 253
frames of reference 7
frequently asked questions module 174

G

gathering 275
genres 206
global area network 146
global economy age 116
Grounded Theory 245
group collaborative learning 168
Group Decision Support Systems (GDSS) 114
group leader 74
group outcome quality 75
group-support systems 3
GroupSystems 117

H

human capital 38

I

Idea Generation 18
improvement groups 69
improvisation 151
informal chat 252
informating 39
Information and Communication Technologies (ICTs) 154, 223
information clustering 116
information exchange 28, 60, 64
Information Extraction (IE) 115

information flow 63, 65
information management 274
information needs analysis 91
information processing 50
information retrieval 116, 154
information technology (IT) 82, 181, 239
information transference 28
information-sharing literature 135
initial screening 18
innovation 1, 2
instructional design 107
instructor-centric method of teaching 167
integrative framework 221
intellectual assets 113
intellectual capital literature 24
intelligent KM-server-tier 115
inter-functional exchanges 54
interaction 114, 282
interactiveness 167
interests 160
Internet 262
Internet technology 167
interviewing protocols 250
IS infrastructure flexibility 186
ISPs 269
IT infrastructure flexibility 181

K

KM-enabled architecture 112
KM-enabled collaborative architecture 116
knowledge 83, 284
knowledge acquisition 38
knowledge characteristics 39
knowledge communication 50, 54, 55
Knowledge creation 51
knowledge exchanges 64
knowledge management (KM) 112, 113, 141, 154
knowledge repository 132
knowledge sharing 51
knowledge specialization 64
knowledge transfer 53
knowledge-based products 40
knowledge-sharing 121, 127
knowledge-transfer process 49

L

leadership requirements 74
learner authentication 174
learner-centric model 167
learning 34
learning packages 170
legacy software systems 245
Library Directors' Group 230
Listservs 66
literature review 122
live broadcasting 176
LiveNet 1

M

machine translation (MT) 117
macroeconomic theory 38
MAF Quality Management 67
manage action items 277
mapping the scene 250
mass customization 189
massive modernization 106
measurement instruments 94
"Meeting Automation Tool" (M.A.T.) 274
meeting chairman 278
meeting participant 278
meeting session process 208
meta-process for process improvement. 56
microeconomic level 38
modularization 172
motivational mechanisms 88
multimedia 204

N

National Weather Service 106
negative reinforcement 161
negotiations 284
no-collaboration 164
nonverbal cues 122
normative prescriptions 25, 49

O

Optimal Control and Systems Theory 34
organizational change 141, 142, 143, 230
organizational context 142, 222
organizational cost 69

organizational functions 63
organizational instability 148
organizational intellect 40
organizational knowledge 16, 50, 51
organizational learning 24, 27, 53, 141
organizational learning effectiveness 77
organizational learning typology 32
organizational memory systems 114
organizational network 145
organizational procedures 75
organizational pull 143
organizational roles 63
organizational survival 43
organize project 277
owner educator 156

P

pace 168
participants 278
participation congruence 88
participative decision making (PDM) 87, 89
payment 168
peer training 106
peer-to-peer interactions 168
performance tracking 174
persuasive messages 263
place 168
planning process 208
Positive and Negative Reinforcement 162
Positive and Negative Reinforcement with Query Key 162
Post-Search Informing 164
Pre-search Request Based Collaboration 164
process improvement 50, 55, 56
process redesign 77
process redesign quality 77
process view 113
process-related data 55
professional discourse 284
project context 221
project leader 278
Project Management Body of Knowledge (PMBOK) 173
project management perspective 218
project member 278
project participants 278
project success 225
public policy makers 269
punctuated equilibrium 33
Push-Pull Theory 32

Q

query keyword override 161
questionnaire data 131

R

RAMESES 244
re-engineering 41
real world experience 171
recipient firms 268
reframing 7
remote collaboration 3, 4
remote innovation 1, 17
reorganization effort 106
return on intellect 48
return on investment 48
review meeting results 277
review project evolution 277
Rich Maps 255
rigorous conceptual work 216
RPC (Remote Procedure Call) 282
Run Meeting 277

S

scalable application-server-tier 114
Science Operations Officer (SOO) 106
secured access 172
senior leadership 74
sensemaking 3, 4
serendipitous discovery 161
server-pushed technology 177
setting the scene 252
shared knowledge 50
shared mental models 49
sharing constraints 159
sharing knowledge 122
simple positive reinforcement 161, 162
simulated user 162
simultaneous implementation 143
Smart card 177
SMEs (Small-to-Medium Enterprises) 240

social intercourse 284
spam 262, 265
specialization 63
specialization of knowledge 63
sphere-of-interest 160
staffing changes 91
station systems 283
strategic information systems (SISs) 182
strategic management 187
structuring 276
student progress monitoring 172
substantive hypotheses 95
summary tables 26
support meetings 206
survey instrument 229
sustained competitive advantage 187, 188
system mechanisms 209
system success 82
system-use paradigm 86
systems analysis 89

T

team based learning 170
team dynamics 224
teams 6
techno-utopist 43
technological drift 151
technological frames 34
technological systems 106
technology implementation 148
Term Frequency/Inverse Document Frequency (TF/IDF) 160
theory building 216
Theory X 45
Theory Y 45
theory-practice dichotomy 39
third wave economy 37
three-by-three matrix 26
time 168
time agents 156
time competition 193
time constraints 63
time limitations 63
time-to-market 193, 195
trade organizations 269
training 107
transcripts 252

U

unauthorized access 170
unique structural characteristics 183
unique technological foundation 184
unsolicited communications 262
upgraded satellites 106
USENET groups 268
user agent 156
user collaboration 156
user groups 229
user participation 82, 85

V

verbal-based learning method 167
video conferencing systems 114
video streaming 176
video-on-demand sessions 176
videoconferencing 122
virtual arrangements 215
virtual campus 170
virtual classroom 173, 177
virtual global business company 112
virtual inter-organizational collaboration 121
virtual library 228
virtual library plan 231
Virtual Library Planning Committee (VLPC) 229
virtual organizations 141
virtual spaces 114
virtual system 117
virtual team 83, 120, 215
virtual team knowledge-sharing 123
virtual workplace 121

W

wandering 155, 158
web-based computer system 1
web-based course management systems (CMS) 174
Web-based Training Resource Center (TRC) 108
Weberian hierarchies 45
wicked problems 240
workflow 114
