

Index

A

- access control 107, 124, 181
- accountability 86
- alteration 3
- ANSI standards 185
- assessment of security 83
- assurance 86
- audit trail 127
- auditing 61, 113
- authentication 27, 107, 117, 222
- authentication method 12
- awareness 8

B

- banking community 185
- Bohach v. City of Reno 255
- Bourke v. Nissan Motor Co. 255

C

- ciphertext feedBack 197
- Code of Practice 94
- collaborative networks 69
- communication media 249
- communications integrity 87
- computer crimes 56
- computer mediated business environment 3
- confidentiality 28, 109, 192
- connectionless integrity 193
- control strategy 59
- cookies 60
- criminal activities 274
- cryptographic algorithms 89
- cryptography 115, 163, 185

D

- data centers 8
- data interception 52
- data protection 272
- data protection mechanisms 24
- date/time stamp 223
- denial of service 3, 111
- deterrence-based trust 76
- digital certificate 168
- digital signature 116, 164, 168
- Directory Access Protocol 129
- disaster 63
- documentation 86

E

- e-commerce 39, 99
- e-mail attachments 32
- e-mail policies 286
- electronic commerce 163
- electronic data interchange 24
- electronic mail 248
- electronic messaging 24
- electronic retailer 99
- encryption 11, 292
- errors and omissions 3
- ethics 92
- expectation of privacy 251
- export controls 181

F

- Federal Electronic Communications Privacy Act 257
- Federal Electronic Communications Privacy Act of 1 249

firewalls 9
 Flanigan v. Epson. 255
 Fourth Amendment 252
 fraud or theft 3
 Freedom of Information Act 261

H

hackers 29, 52
 HTTP interaction sequence 108
 hypermedia 106
 hypertext 106

I

identification-based trust 77
 identity-based schemes 214
 information privacy 274
 information security policy 96
 information security risk assessment 4
 insurance policies 61
 integrity 109
 internal enterprise network 107
 International Electrotechnical Commission 187
 International Organization for Standardization 187
 international standards 186
 International Telecommunications Union 187
 Internet Activities Board 188
 Internet Engineering Task Force 188
 IPv6 key management protocol 36
 ISO/OSI security architecture 167

J

Joint Technical Committee 187

K

knowledge-based trust 77

L

legal 89
 legal right 249

Lightweight Directory Access Protocol 129

M

management services 128
 managing security processing 81
 message authentication code 200
 message content 111
 message tampering 111
 misrepresentation 53

N

National Computer Security Center 84
 national data protection laws 30
 National Health Index 289
 Needham-Schroeder public key protocol 176
 New Zealand Health Information Service 289
 non-repudiation 166
 non-repudiation service 107

O

obligations to monitor e-mail 248
 Orange Book 84
 Organization for Economic Cooperation and Development 91
 OSI security architecture 190

P

passwords 8
 personal messages 249
 personal security activities 4
 privacy 28
 Privacy Act 1993 272
 Privacy for Consumers and Workers Act 259
 privacy protection 272
 private key 11, 165, 179
 protection mechanisms 164
 public awareness 290
 public key 165

public key algorithms 116
 public key cryptography 11
 public key infrastructures 163
 public sector 3
 public-key cryptography 32

R

recovery 6
 Red Book 87
 regulatory and contractual exposure 3
 remote terminals 83
 restore operations 7
 Restuccia v. Burk Technologies, Inc.
 255
 right to privacy 249
 risk 51
 risk assessment 5

S

screening router 9
 Secure Hypertext Transfer Protocol
 34
 Secure Socket Layers 34
 secure sockets layer 12
 security 163
 security attacks 32
 security awareness 61
 security perceptions 4
 security policy 61, 191
 security processes 51
 security standardisation 185
 security strategies 61
 security training 62
 Shoars v. Epson 255
 shopping carts 60
 signature/verification key pairs 222
 single-key cryptography 32
 smart card 179
 Smyth v. Pillsbury Co. 255
 SSL handshake protocol 123
 standards 107, 185
 symmetric key algorithms 116
 SYN flooding 28

system malfunctions 3

T

telecommunications 3
 transmission security 87
 trust 39
 trust-based organizations 45
 Trusted Computer System Evaluation
 Criteria 84
 trusted third parties 177

U

unauthorized disclosure 3

V

value system 46
 virtual organisation 44
 virus 32, 52

W

Wanganui Computer Centre Act of
 1976 277
 WebTrust 43

X
