

# Acknowledgments

We would like to acknowledge the help of all those involved in the collation and review process of this book, without whose support the project could not have been completed. Most of the authors of the chapters in this volume also served as referees for articles written by other authors. There were also a number of external reviewers who kindly refereed submissions. Thanks go to all who provided comprehensive constructive reviews and comments. A special note of thanks goes to the staff at Idea Group Publishing, whose contributions throughout the whole process from inception to publication have been invaluable.

We would like to thank the authors for their excellent contributions to this volume. We would also like to thank Senior Editor Dr. Mehdi Khosrow-Pour, Managing Director Jan Travers, and Development Editors, Michele Rossi and Kristin Roth at Idea Group Publishing. Finally, we wish to thank our families for their support during the project.
