

## Acknowledgments

The editor would like to acknowledge the help of all involved in the collation and review process of the handbook, without whose support the project could not have been satisfactorily completed. A special thanks goes to Idea Group Inc. Special thanks goes to Mehdi Khosrow-Pour, Jan Travers, Kristin Roth, Renée Davies, Amanda Phillips, and Dorsey Howard, whose contributions throughout the whole process from initial idea to final publication have been invaluable. I would like to express my sincere thanks to the advisory board and my employer Johannes Kepler University Linz and my colleagues at the Institute of Telecooperation for supporting this project. In closing, I wish to thank all of the authors for their insights and excellent contributions to this handbook, in addition to all those who assisted in the review process.
