

## Acknowledgments

A number of colleagues have contributed to this book. This is the place to thank all of you! Without your efforts this book would not exist. The first ones to mention are those who served on our editorial office and who cared for the required reviews being provided: Gunter Grieser (Technical University of Darmstadt), Klaus P. Jantke (FIT-Leipzig), Roland Kaschek, Kinshuk, Klaus-Dieter Schewe (all from Massey University), Yuzuru Tanaka (Hokkaido University), and Bernhard Thalheim (Christian-Albrechts-Universität Kiel). Further colleagues helped us make a good book with the reviews they prepared. They are Thomas Roth-Berghofer, Aleksander Binemann-Zdanowicz, Steve Corich, Gill Dobbie, Gunar Fiedler, Sabine Graf, Tiong Goh, Annika Hinze, Alexander Kuckelberg, Taiyu Lin, Martin Memmel, Peggy Schmidt, Jose Maria Turull-Torres, Michael Verhaart, Gerald Weber, Yuejun Zhang, and Xiafong Zhou.
