

## About the Contributors

**Saqib Saeed** is an Assistant Professor at the Computer Science Department at Bahria University Islamabad, Pakistan. He has a Ph.D. in Information Systems from University of Siegen, Germany, and a Masters degree in Software Technology from Stuttgart University of Applied Sciences, Germany. He is also a Certified Software Quality Engineer from American Society of Quality. His research interests lie in the areas of human-centered computing, computer-supported cooperative work, empirical software engineering, and ICT4D.

**Mohammad Ayoub Khan** is working with Center for Development of Advanced Computing (Ministry of Communication and IT), Govt. of India, as a Scientist, with interests in CAD VLSI design tools and technique, hardware-software code sign, VLSI (electronic design automation, circuit optimization, timing analysis), placement and routing in network-on-chip (buffer management, interconnects and port design), RFID technologies, etc. He has more than 7 years' experience in his research area. He has published more than 50 papers in reputed journals and international IEEE/Springer conferences. He is contributing to the research communities by various volunteer activities. He has served as conference chair in various reputed international conferences like ICMLC 2010, ICSEM 2010, ICRTBAIP 2010, ICIII 2010, to name a few. He is member of professional bodies of IEEE, ISTE, IACSIT, ACEE, and IAENG. He is also member of editorials/reviewers board for *IEEE Communications Letters*, *IEEE Transaction of Industrial Informatics*, Springer CCSP, Elsevier Computers and Electrical Engineering.

**Rizwan Ahmad** received B.Sc. Electrical and Electronics Engineering degree from Islamic University of Technology, in 2000, M.Sc. degree in Communication Engineering and Media Technology from University of Stuttgart, Germany, in 2004, and Ph.D. in Electrical Engineering degree from Victoria University, Melbourne, Australia, in 2010. In addition to academic assignments, Dr. Ahmad has worked with several industries, such as Sony, Fujitsu Siemens, and British Telecom. He is currently working as a Postdoctoral Research Fellow at College of Engineering, Qatar University, Qatar. His research interests include MAC protocols, spectrum and energy efficiency, and performance analysis for wireless communication and networks. Dr. Ahmad was a recipient of the prestigious IPRS scholarship from the Australian government. He has published and served as a reviewer for IEEE journals and conferences. He has also served as committee member for various conferences.

\* \* \*

**Hisham Abdelsalam** holds a Master of Science and a Ph.D. in Mechanical Engineering (Old Dominion University, Norfolk, Virginia, USA). He obtained his Bachelor degree with honors in Mechanical Engineering from Cairo University (Cairo, Egypt). Dr. Abdelsalam is an Associate Professor in the Operations Research and Decision Support Department, Faculty of Computers and Information, Cairo University. In 2009, Dr. Abdelsalam was appointed as the director of the Decision Support and Future Studies Center in Cairo University. During the past four years, Dr. Abdelsalam has led several consultancy and research projects and published fourteen scholarly articles on e-government.

**Emad A. Abu-Shanab** earned his PhD in Business Administration, majoring in MIS area in 2005 from Southern Illinois University – Carbondale, USA. He earned his MBA from Wilfrid Laurier University in Canada, and his Bachelor in Civil Engineering from Yarmouk University (YU) in Jordan. He is an Associate Professor in MIS, where he teaches courses like Operations Research, e-Commerce, e-Government, introductory and advanced courses in MIS, Production Information Systems, and Legal Issues of Computing. His research interests are in areas like e-government, technology acceptance, and e-learning. He has published many articles in journals and conferences and authored two books in the e-government area. Dr. Emad worked as an Assistant Dean for Students' Affairs, Quality Assurance Officer in Oman, and the Director of Faculty Development Center at YU.

**Ashraf Al-Saggar** worked in Irbid District Electricity Company (IDECO) since 2003, and now holds a system administrator position. He earned his Bachelor degree in Computer Information System (CIS) from Philadelphia University in 2008 and finished his Master degree in Management Information System (MIS) from Yarmouk University in 2012. He is an expert in system administration and data management, and has interest in IT project management research and IT management in general.

**Izzat Alsmadi** is an Associate Professor in the Department of Computer Information Systems at Yarmouk University in Jordan. He obtained his Ph.D. degree in Software Engineering from NDSU (USA). His second Master in Software Engineering from NDSU (USA) and his first Master in CIS from University of Phoenix (USA). He has a B.Sc. degree in Telecommunication Engineering from Mutah University in Jordan. He has several published books, journals, and conference articles largely in software engineering fields.

**A. Q. Ansari** is working with the Department of Electrical Engineering at Jamia Millia Islamia (A Central University by an Act of Parliament), New Delhi. He has also served as Professor and Head, Department of Computer Science, and as Dean, Faculty of Management Studies and Information Technology at Jamia Hamdard (Hamdard University), New Delhi. Professor Ansari did his B. Tech. (Electrical, Low Current) from AMU, Aligarh, and received the M. Tech. (IEC) and Ph. D. degrees from IIT Delhi and JMI, New Delhi, respectively. His studies are in the areas of computer networks, networks-on-chip, image processing, and fuzzy logic. He has published about eighty research papers in international and national journals and proceedings of conferences. Prof. Ansari is a Fellow of IETE, IE (I), and National Telematics Forum (NTF). He is a Senior Member of IEEE (USA) and Computer Society of India and Life Member of ISTE, ISCA, and National Association of Computer Educators and Trainers (NACET). He is also presently the Chairman of the Delhi Chapter of the IEEE-Computational Intelligence Society.

## About the Contributors

**Martin L Bariff** is Associate Professor of Information Management in the Stuart School of Business at Illinois Institute of Technology, Chicago, IL, USA. He also is a CPA, CBPP, and CISA. Previously, he was a faculty member of The Wharton School (Penn) and The Weatherhead School (CWRU). Prof. Bariff teaches courses on Information Management and Control, Business Analytics, and Project Management. His research interests include impacts of IT on organization strategy, design, and performance; business agility and change; information overload consequences on productivity; and enterprise risk management. Currently, Prof. Bariff is Treasurer of the Information Overload Research Group and has held leadership positions in a number of academic and practitioner organizations. He has published in a variety of scholarly and professional journals. Prof. Bariff has consulted for both corporate and government organizations.

**Eleonora Benecchi** is a PhD Student at the Faculty of Communication Sciences at the Università della Svizzera Italiana. She collaborated in different research projects with Università della Svizzera Italiana focusing on television and radio programming and worked at University of Bologna, where she was Teaching Assistant of Theories and Techniques of Radio-TV Language. She is the author of the book *Anime: Cartoni con l'Anima* (2005). The main research interests are fandom studies, Japan animation, and TV-radio programming. She is also tutor of the radio network Psicoradio.

**Edward T. Chen** is Professor of Management Information Systems of Operations and Information Systems Department in the Manning School of Business at University of Massachusetts Lowell. Dr. Chen has published over sixty refereed research articles in scholarly journals such as *Information & Management*, *Journal of Computer Information Systems*, *Project Management*, *Comparative Technology Transfer and Society*, *Journal of International Technology and Information Management*, *International Journal of Innovation and Learning*, etc. Dr. Chen has served as vice-president, board director, track chair, and session chair of many professional associations and conferences. Professor Chen has also served as journal editor, editorial reviewer, and ad hoc reviewer for various academic journals. Dr. Chen has received the Irwin Distinguished Paper Award at the Southwestern Federation of Administrative Disciplines conference and the Best Paper Award at the International Conference on Accounting and Information Technology. His main research interests are in the areas of Project Management, Knowledge Management, and Green IT.

**Reem Dawoud** holds a Master of Business Administration with a concentration in Finance from Maastricht School of Management (MSM). She obtained her Bachelor degree in Business Administration from Cairo University (Cairo, Egypt) in 1992. She attended courses in Liquidity Forecasting at Bank of England, UK, 2008, and a course in US-Monetary Policy Implementation at the New York Federal Reserve, USA, 2009. Reem Dawoud is currently a Financial Consultant in the field of Portfolio Management for two of the top leading Asset Management firms in Egypt; previous to that, Mrs. Dawoud was Head of Money Market Department at Central Bank of Egypt. She had commenced her career in 1996 as a Financial Analyst in a leading brokerage firm in the field of equity markets.

**Hatem Elkadi** was born in Egypt in 1960. He graduated from the Faculty of Engineering, Cairo University, in 1983. He got his Ph.D. at the University of Lille, France, in 1993. He is currently an Assistant Professor at Cairo University. He is Advisor for Strategic Projects at MSAD (Ministry of State

for Administrative Development) and supervises a number of national e-government projects. He was the Director of the Egyptian eGovernment Services Delivery Program, which was ranked 23<sup>rd</sup> worldwide in 2010, and in 2008, he won the first prize for the All Africa Public Service Innovation Award. He is member of the “National Dispute Settlement Committee for ICT issues,” as well as the steering committee for the “National ID Card project.” During his career, he managed several successful ICT projects with the government of Egypt, private sector, and NGOs, as well as consulted for National Projects in Yemen and Kuwait.

**Maneesha Gupta** received the B.E. degree in Electronics and Communication Engineering from Government Engineering College, Jabalpur, in 1981, M.E. in Electronics and Communication Engineering from Government Engineering College, Jabalpur, in 1983, and Ph.D. in Electronics Engineering (Analysis, Synthesis, and Applications of Switched Capacitor Circuits) from Indian Institute of Technology, Delhi, in 1990. She held the positions of Lecturer in Electronics and Communication Engineering Department at Government Engineering College, Jabalpur, from 1981 to 1982, Kota Engineering College, Kota, from 1986 to 1988, YMCA Institute of Engineering, Faridabad, in 1998, and Netaji Subhas Institute of Technology, New Delhi, from 1998 to 2000. She is currently working as Professor in Electronics and Communication Engineering (ECE) Department of the Netaji Subhas Institute of Technology, New Delhi. She has authored and co-authored over 50 research papers in the above areas in various international/national journals and conferences. She got best paper award for her paper in *IETE Journal of Education* in 2001. Her teaching and research interests are switched capacitors circuits and analog signal processing.

**Mudassir Hussain** is a graduate of College of Aeronautical Engineering PAF Academy Risalpur, and is currently pursuing his Masters in Engineering Management at Center of Advanced Studies in Engineering.

**Assad Iqbal** is a Computer Information System Engineer. He graduated from NWFP University of Engineering and Technology, Peshawar, Pakistan, and did his M.Sc. in Engineering Management from the Department of Engineering Management, Center for Advance Studies in Engineering (CASE), Islamabad, Pakistan. Currently, he is pursuing his PhD in Engineering Management.

**Seifedine Kadry** is an Associate Professor of Applied Mathematics in the Faculty of General Education at American University of the Middle East Kuwait. He received his Masters degree in Modeling and Intensify Calculus (2001) from the Lebanese University – EPFL-INRIA. He did his Doctoral research (2003-2007) in Applied Mathematics from Blaise Pascal University-Clermont Ferrand II, France. He worked as Head of Software Support and Analysis Unit of First National Bank, where he designed and implemented the data warehouse and business intelligence; he has published one book and more than 25 papers on applied math, computer science, and stochastic systems in peer-reviewed journals.

**Farrukh Masood Khawaja** holds a Master degree in Embedded Systems Engineering from University of Stuttgart, Germany, and Bachelors in Computer Science from International Islamic University Islamabad, Pakistan. He has extensive industrial experience in well-known multinational companies like Ericsson Telecommunication Frankfurt, Altran Technologies Frankfurt, Micronas GmbH Munich, Marconi Communications Stuttgart, and Agilent Technologies Stuttgart. His expertise lies in the area of software verification and quality assurance.

## **About the Contributors**

**Irfan Anjum Manarvi** is an Aerospace Engineer. He graduated from PAF College of Aeronautical Engineering PAF Academy Risalpur, and did his M Phil and PhD from Department of Design Manufacture and Engineering Management, University of Strathclyde, Glasgow, United Kingdom. He is currently a Professor at Iqra University Islamabad Campus and is a Visiting Faculty Member at Center of Advanced Studies in Engineering.

**Vincenzo De Masi** holds a Master in Media Management from the Faculty of Communication Sciences at the University of Lugano, holds a four-year degree in DAMS Cinema at the University of Bologna. He has started a PhD program at University of Zurich and Lugano with a dissertation on Chinese Animation, and he is an assistant with the same Institute and also filmmaker.

**Muhammad Asim Qazi** was born in 1979. He received Bachelor of Aeronautical Engineering degree in Aerospace Discipline from College of Aeronautical Engineering, Risalpur. Presently, he is doing Masters in Engineering Management from Center for Advanced Studies in Engineering (CASE), Islamabad.

**Hammad Ahmed Rafiq** was born in 1974 at Rawalpindi, Pakistan. He received his Bachelors of Aeronautical Engineering degree in Avionics Discipline from College of Aeronautical Engineering Risalpur. Presently, he is doing Masters in Engineering Management from Center for Advance Studies in Engineering (CASE), Islamabad.

**Mohammad Anwar Rahman** is an Assistant Professor at the University of Southern Mississippi, USA. He joined the university in 2008 followed by his PhD in Engineering Science, concentration on Industrial Engineering. Rahman developed several new courses, such as Global Supply Chain Management, Industrial Modeling, Production Technology, in the Department of Industrial Engineering Technology at USM. He published research works in several academic and professional journals in the area of stochastic modeling for supply chain problems and decision-making application under uncertainty where information is little known and/or risk averse. He is partnering with Mississippi Department of Education, Mississippi Department of Transportation through funded projects and affiliated with International Conference on Industrial Engineering and Operations Management Program Committee. He is an executive board member of Center for Logistic Trade and Transportation—a research center for transportation logistics.

**Hassanali Rassouli** is a Mechanical Engineer and a Member of the American Society of Mechanical Engineers (ASME) with more than twenty-five years of engineering and engineering management practice in R&D and product design and development. He started his engineering practice as a draftsman, while he was a mechanical engineering student at Iran University of Science and Technology. He was acquainted with modular design method when he was working as design engineer for a shock-absorber manufacturing company and continued his engineering practice as a design engineer and later as an engineering and R&D manager mostly for automotive OEM suppliers, where he learned about product development approaches like APQC and standards like QS-9000 and ISO/TS16949. His career development started from component design to product design and engineering system design. He is now working as an engineering and management consultant.

**Paolo Renna** is an Assistant Professor at Department of Environmental Engineering and Physics in the Engineering Faculty of Basilicata University (Italy). He took Ph.D. degree at Polytechnic of Bari in Advanced Production Systems. His academic researches principally deal with the development of innovative negotiation and production planning in distributed environments and manufacturing scheduling in dynamic environment.

**Kashif Saeed** is currently working as Reservoir Engineer. He holds a Bachelor of Honour in Geology and Master in Geophysics and a Master degree in Reservoir Engineering. Integration of geo-sciences and engineering, static modeling, dynamic simulation, history matching, and uncertainty quantification are his key areas of interest.

**Irene Samanta** is working as a Lecturer in International Marketing in the Department of Business Administration TEI of Piraeus in Greece. She obtained her Ph.D. degree from the University of the West of Scotland (UK) in modeling the relationships in B2B firms under e-marketing practices. She obtained M.Sc. in International Marketing from University of Paisley (UK), and B.A. in Business Administration from the Technological Education Institute of Piraeus. She has taught the last eight years in M.Sc. program in International Marketing of the University of the West of Scotland and M.Sc. program in International Business Management in TEI of Piraeus. She has supervised a large number of M.Sc. dissertations concentrated in the area of marketing, electronic relationships. She is author and co-author of several papers in various scientific journals, book chapters, conference proceedings, and several articles in economic journals. She is the co-author of three textbooks. She participates as an active member in academic associations, including the European Association of Operations Management, European Academy of Management, and the Hellenic Institution of Operational Research. In addition, she participates as an active member in professional associations, including the Industrial and Commercial Chamber of Piraeus and Commercial Association of Piraeus.

**Kamaljeet Sandhu** is a Senior Lecturer of Accounting and Information Systems at the School of Business, Economics, and Public Policy of the University of New England. He earned his Ph.D. in Information Systems from Deakin University, Melbourne. His teaching and research expertise are in Electronic Services and Services Management at Universities, Corporate Governance and Law, Accounting Information Systems, Management Accounting, Asset Management, and E-Learning.

**Satish Chandra Tiwari** received the B.Sc. and M.Sc. degree in Electronics from University of Delhi and Budenlkhand University, respectively. He received the M.Tech degree in VLSI Design from Indraprastha University, New Delhi, in 2009. He currently is pursuing the Ph.D. degree in Electronics Engineering at the Division of ECE, NSIT, University of Delhi. From March 2009 to July 2009, he was an intern in IC Design Group, Cadence Design Systems, Noida, India, where he worked on generation and validation of test cases for Cadence Encounter. His research interests include low power high-density digital circuits. He has more than seven publications in international journals/conferences. He has two patents pending with IPO.

### ***About the Contributors***

**Muhammad Kashif Yaqoob** is specialist in the domain of G&G information and project management systems. Currently, he is working as Specialist Information Management and focuses on designing integrated workflows for G&G applications. He has 13 years of experience in the exploration and production industry with focus on geophysics, project management, and G&G data management.

**Georg Ziegler** has developed a pre/post processor for the industry simulator Eclipse and works as a Reservoir Engineer. He has 30 years of experience in the exploration and production industry, from geophysics over geology to reservoir engineering.
