End-User Computing: Concepts, Methodologies, Tools, and Applications

Steve Clarke
University of Hull, UK
End-user computing: concepts, methodologies, tools, and applications / Steve Clarke, editor.

Summary: "This collection compiles the most authoritative research in this area. It provides libraries with definitive studies covering all of the salient issues of the field, it gives researchers, managers, and other professionals the knowledge and tools they need to properly understand the role of end-user computing in the modern organization."—Provided by publisher.
