Global Information Technologies: Concepts, Methodologies, Tools, and Applications

Felix B. Tan
Auckland University of Technology, New Zealand
Global information technologies: concepts, methodologies, tools and applications / Felix Tan, editor.

Summary: "This collection compiles research in all areas of the global information domain. It examines culture in information systems, IT in developing countries, global e-business, and the worldwide information society, providing critical knowledge to fuel the future work of researchers, academicians and practitioners in fields such as information science, political science, international relations, sociology, and many more."

Includes bibliographical references and index.

1. Information technology. 2. Management information systems. 3. Information society. I. Tan, Felix B., 1959-
