Information Communication Technologies: Concepts, Methodologies, Tools, and Applications

Craig Van Slyke
University of Central Florida, USA
Information communication technologies : concepts, methodologies, tools and applications / [compiled] by Craig Van Slyke. p. cm.
Summary: “This collection meets these research challenges; compiling breaking research in the pivotal areas of social adaptation to information technology. It covers ad-hoc networks, collaborative environments, e-governance, and urban information systems, case studies, empirical analysis, and conceptual models. Over 300 chapters contributed by experts, this six-volume compendium will provide any library’s collection with the definitive reference on ICTs”--Provided by publisher.
