This is the third international conference on the problems of the European entrepreneurship after the first two conferences held respectively in 2006 and 2008. The 2006 conference entitled ‘Entrepreneurship in United Europe – Challenges and Opportunities’ was held in Sunny Beach resort, Black Sea, Bulgaria, and the second one – September 2008 – in Sunny Day resort, Black Sea, Bulgaria. The papers presented at the first conference were published in a conference proceedings book, and selected papers from the second one – in the book ‘The European Entrepreneurship in the Globalising Economy – Challenges and Opportunities’ published by Edward Elgar Publishing (April 2011).

The mission of the last year conference was to bring together leading European and world ‘players’ in the field of entrepreneurship to discuss and share their results and opinions in the context of a United Europe: the place and the role of the European entrepreneurship in crisis and post-crisis development. The main objectives were:

- To discuss the strengths and the weaknesses of European entrepreneurship in the context of globalisation, knowledge-based economies and multicultural business environment;
- To analyse the role and behaviour of European entrepreneurship in the crisis and in post-crisis development;
- To present recent entrepreneurship research and developments in entrepreneurship training in a united Europe;
- To discuss current and potential projects and develop networks between researchers and teachers, consultants, entrepreneurs and policy makers from Europe and the other regions of the world;
- To observe how European entrepreneurship could contribute to the success of a new European strategy for development until 2020.
