Data Warehousing and Mining:
Concepts, Methodologies, Tools, and Applications

John Wang
Montclair State University, USA
Data warehousing and mining: concepts, methodologies, tools and applications / John Wang, editor.

Summary: "This collection offers tools, designs, and outcomes of the utilization of data mining and warehousing technologies, such as algorithms, concept lattices, multidimensional data, and online analytical processing. With more than 300 chapters contributed by over 575 experts from around the globe, this authoritative collection will provide libraries with the essential reference on data mining and warehousing."--Provided by publisher.

Includes bibliographical references and index.

1. Data mining. 2. Data warehousing. I. Wang, John, 1955-
