Mobile Networks and Cloud Computing Convergence for Progressive Services and Applications

Joel J.P. Rodrigues (University of Beira Interior, Portugal), Kai Lin (Dalian University of Technology, China), and Jaime Lloret (Polytechnic University of Valencia, Spain)

Recent technology trends involving the combination of mobile networks and cloud computing have offered new chances for mobile network providers to use specific carrier-cloud services. These advancements will enhance the utilization of the mobile cloud in industry and corporate settings.

Mobile Networks and Cloud Computing Convergence for Progressive Services and Applications is a fundamental source for the advancement of knowledge, application, and practice in the interdisciplinary areas of mobile network and cloud computing. By addressing innovative concepts and critical issues, this book is essential for researchers, practitioners, and students interested in the emerging field of vehicular wireless networks.

Topics Covered:
- Energy Management
- Security and Privacy
- Antenna Technologies
- Mobile Learning Over the Cloud
- Mobility Measurement, Modeling, and Simulation
- Networks and Systems Design

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.

Joel José P. C. Rodrigues is a professor at the Department of Informatics of the University of Beira Interior, Covilhã, Portugal, and researcher at the Instituto de Telecomunicações, Portugal. He received a PhD degree in informatics engineering, an MSc degree from the University of Beira Interior, and a five-year BSc degree (licentiate) in informatics engineering from the University of Coimbra, Portugal. His main research interests include sensor networks, e-health, vehicular delay-tolerant networks, and mobile and ubiquitous computing. He is the leader of NetGNA Research Group (http://netgna.it.ubi.pt), the vice-chair of the IEEE ComSoc Technical Committee on Communications Software, the vice-chair of the IEEE ComSoc Technical Committee on eHealth, Member Representative of the IEEE Communications Society on the IEEE Biometrics Council, and officer of the IEEE 1907.1 standard. He is the editor-in-chief of the International Journal on E-Health and Medical Communications, the editor-in-chief of the Recent Patents on Telecommunications, and has also served on several Special Issues as a Guest Editor (IEEE Transactions on Multimedia, Elsevier Journal of Network and Computer Applications, IET Communications, Journal of Communications, etc.). He has served as General Chair, Technical Program Committee Chair, and symposium Chair for many international conferences, including IEEE ICC, GLOBECOM, CAMAD, MAN, ITST, ICNG, SoftCOM, among others. He participated in tens of international TPCs and several editorial review boards (including IEEE Communications Magazine, International Journal of Communications Systems, etc.). He has authored or coauthored over 250 papers in refereed international journals and conferences, a book, and 2 patents. He had been awarded the Outstanding Leadership Award of IEEE GLOBECOM 2010 as CSSMA Symposium Co-Chair and several best papers awards. Prof. Rodrigues is a licensed professional engineer (as senior member), member of the Internet Society, an IARIA fellow, and a senior member of ACM and IEEE.

Print: US $180.00 | Perpetual: US $255.00 | Print + Perpetual: US $360.00

Pre-pub Discount:
Print: US $170.00 | Perpetual: US $240.00
* Pre-pub price is good through one month after publication date.

An Excellent Addition to Your Library!
Released: November 2013

Mobile Networks and Cloud Computing Convergence for Progressive Services and Applications

Part of the Advances in Wireless Technologies and Telecommunication Book Series

Joel J.P. Rodrigues (University of Beira Interior, Portugal), Kai Lin (Dalian University of Technology, China), and Jaime Lloret (Polytechnic University of Valencia, Spain)
