Research 2.0 and the Impact of Digital Technologies on Scholarly Inquiry

Part of the Advances in Knowledge Acquisition, Transfer, and Management Book Series

Antonella Esposito (University of Milan, Italy)

Description:

The academic landscape has been significantly enhanced by the advent of new technology. These tools allow researchers easier information access to better increase their knowledge base.

Research 2.0 and the Impact of Digital Technologies on Scholarly Inquiry is an authoritative reference source for the latest insights on the impact of web services and social technologies for conducting academic research. Highlights international perspectives, emerging scholarly practices, and real-world contexts.

Readers:

This book is ideally designed for academicians, practitioners, upper-level students, and professionals interested in the growing field of digital scholarship.

Topics Covered:

- Academic Conferences
- Digital Identity
- Online Videos
- Research Funding
- Research Libraries
- Social Media
- Writing Groups

Hardcover + Free E-Access: $185.00  E-Access + Free Hardcover: $185.00

Table of Contents

Preface

Section 1 – Contextual Scenarios of Research 2.0

Chapter 1
Social scholars in the digital age: Social scholarship and practices
Jiahang Li, Michigan State University, US
Christine Greenhow, Michigan State University, US
Emilia Askari, Michigan State University, US

Chapter 2
Research and Web 2.0: Technology, Innovation and Actor Constellations
Diego Ponte, University of Trento, Italy
Stefan Klein, University of Münster, Germany

Chapter 3
Libraries meet Research 2.0: Literacies and services
Tibor Koltay, Szent István University, Hungary
Sonja Špiranec, University of Zagreb, Croatia

Chapter 4
Alternative research funding mechanisms: Make funding fit for science 2.0
David Osimo, Open University of Catalonia, Spain
Laia Pujol Priego, ESADE, Spain
Ms. Riina VUORIKARI, EC JRC IPTS, Spain

Section 2 – International Perspectives

Chapter 5
Perspectives on Digital Scholarship: exploring the conceptual landscape and practices in Latin America
Gustavo Daniel Constantino, National Council for Scientific and Technological Research of Argentina, Argentina
Juliana Elisa Raffagelli, Independent Researcher, Italy

Chapter 6
Visibility of Scholarly Research and Changing Research Communication Practices: A Case Study from Namibia
Catherine Kell, University of the Western Cape, South Africa
Laura Czerniewicz, University of Cape Town, South Africa

Chapter 7
Exploring digital scholarship. A study on the use of social media for scholarly communication among Italian academics
Stefania Manca, Institute of Educational Technology, National Research Council of Italy, Italy
Maria Ranieri, University of Florence, Italy

Section 3 – Emergent Scholarly Practices

Chapter 8
Self-organizing the scholarly practices. How the PhD researchers use Web 2.0 and social media
Antonella Esposito, University of Milan, Italy

Chapter 9
The hook, woo and spin: Academics creating relations on social media
Megan Jane McPherson, Monash University, Australia
Narelle Lemon, La Trobe University, Australia

Chapter 10
Academics’ active/passive use of YouTube for research and for leisure
Yimei Zhu, University of Manchester, UK

Chapter 11
Google scholar’s filter bubble: An inflated actuality?
Ke Yu, Human Sciences Research Council, South Africa
Nazeem Mustapha, Human Sciences Research Council, South Africa
Nadeem Oozeer, SKA South Africa/AMS/NWU, South Africa

Section 4 – Potential Innovation in Researcher Development

Chapter 12
Research 2.0: the contribution of content curation and academic conferences
Maria Spilker, Universidade Aberta, Portugal
Maria Paula Silva, Universidade Aberta, Portugal
Lina Morgado, Universidade Aberta, Portugal

Chapter 13
Writing Groups in the Digital Age: A case study analysis of Shut Up & Write Tuesdays
Sloibhan T O’Dwyer, University of Exeter, UK
Sharon L. McDonough, Federation University Australia, Australia
Rebecca Jefferson, RSPB Centre for Conservation Science, UK
Jennifer Ann Goff, Frostburg State University, US
Michelle Redman-MacLaren, James Cook University, Australia

Chapter 14
Digital identity of researchers 2.0: the case of their Personal Learning Network
Nuno Ricardo Oliveira, Universidade Aberta, Portugal
Lina Morgado, Universidade Aberta, Portugal

About the Contributors

Index

Antonella Esposito has obtained the PhD (European Doctorate) in Education and ICT (E-Learning) at the UOC – Open University of Catalonia and the MRes in Educational and Social Research, Institute of Education, University of London. She has been an e-learning practitioner for more than fifteen years, in the capacity of course designer and online tutor, mainly in the higher education sector in Italy. She has been working at the University of Milan, where she was director of the local e-learning center for seven years. Her current research interests are concerned with learning ecologies of doctoral researchers, digital scholars and open scholarship practices, social media and teacher/student engagement in higher education and research ethics in online settings.
