Social Research Methodology and New Techniques in Analysis, Interpretation, and Writing

Part of the Advances in Library and Information Science Book Series

M. Rezaul Islam (University of Dhaka, Bangladesh & University of Malaya, Malaysia)

Description:
The importance of scientific investigation and research is becoming more pronounced in today’s society, with many organizations relying on this research to make informed decisions. As such, research methodology courses have been integrated into undergraduate and master’s programs at most academic institutions where students are being challenged to conduct and write research.

Social Research Methodology and New Techniques in Analysis, Interpretation, and Writing is a pivotal reference source that provides vital research on the main concepts of research writing, including the guidelines of research methodology and proposal designing. While highlighting topics such as mixed method research, research objectives, and project proposals, this publication provides examples of eight PhD proposals and the frameworks used in organizing qualitative, quantitative, and mixed method research. This book is ideally designed for graduate-level students, academicians, researchers, educators, scholars, education administrators, and policymakers seeking current research on the key steps and techniques used in organizing social research proposals.

ISBN: 9781522578970 Release Date: December, 2018 Copyright: 2019 Pages: 300

Topics Covered:
- Global Institutions
- Mixed Method Research
- Practice Research
- Project Proposals
- Qualitative and Quantitative Research
- Research Design
- Research Guidelines
- Research Methodology
- Research Objective
- Research Proposals
- Scientific Investigation
