

International Journal of Cognitive Informatics and Natural Intelligence (IJCINI)

ISSN: 1557-3958; EISSN: 1557-3966

Established 2007; Published Quarterly

Editor(s)-in-Chief: Yingxu Wang (University of Calgary, Canada)

The development and the cross fertilization between the aforementioned science and engineering disciplines have led to a whole range of extremely interesting new research areas known as cognitive informatics and natural intelligence. The **International Journal of Cognitive Informatics and Natural Intelligence (IJCINI)** encourages submissions that transcend disciplinary boundaries, and is devoted to rapid publication of high quality papers. The themes of IJCINI are natural intelligence, autonomic computing, and neuroinformatics. IJCINI is expected to provide the first forum and platform in the world for researchers, practitioners, and graduate students to investigate cognitive mechanisms and processes of human information processing, and to stimulate the transdisciplinary effort on cognitive informatics and natural intelligent research and engineering applications. IJCINI publishes regular papers, technical correspondences, case studies, letters to the editor, book reviews, conference reports, and special issues.

Individual Price:

Print: US \$260.00

E-Journal: US \$260.00

Print + E-Journal: US \$310.00

Institution Price:

Print: US \$730.00

Online Access: US \$730.00

Print + Online Access: US \$880.00

Prices are subject to change without notification.

Topics Covered:

- Abstraction and means
- Agent technologies
- Artificial intelligence
- Bioinformatics
- Biosignal processing
- Cognitive complexity of software
- Cognitive informatics foundations of AC
- Cognitive linguistics
- Cognitive models of the brain
- Cognitive processes of the brain
- Cognitive signal processing
- Computational intelligence
- Decision theories
- Descriptive mathematics for NI
- Distributed intelligence
- Emotions/motivations/attitudes
- Ergonomics
- Functional modes of the brain
- Fuzzy logic
- Gene analysis
- Gene expression
- Human factors in systems
- Hybrid (AI/NI) intelligence
- Imperative vs. autonomous computing
- Informatics foundations of software engineering
- Informatics laws of software
- Informatics models of the brain
- Intelligent foundations of computing
- Intelligent internet
- Internal information processing mechanisms
- Knowledge engineering
- Knowledge Representation
- Language acquisition
- Machine Learning

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. Interested authors must consult the journal's guidelines for manuscript submissions at www.igi-global.com/publish/resources prior to submission. All article submissions will be forwarded to the Editorial Review Board for double-blind, peer review.

All submissions and inquiries should be directed to the attention of:
Yingxu Wang, yingxu@ucalgary.ca
