The International Journal of Knowledge Management (IJKM) covers all aspects of knowledge regulation and order including organizational issues, technology support, and knowledge representation. IJKM provides a forum for global aspects of this significant field of study differing cultural perspectives on its use of knowledge and knowledge management. This journal also focuses on the technical issues associated with the creation and implementation of knowledge management systems.

Topics Covered:

- Basic theories associated with knowledge creation, knowledge management, and organizational memory
- Case studies of knowledge management and organizational memory systems
- Cognitive theories of knowledge management and organizational memory
- Design of information and communication systems that facilitate knowledge transfer and sharing
- Enablers and inhibitors of knowledge sharing and knowledge transfer behaviors
- Global issues in knowledge management and organizational memory
- Issues related to the capture, storage, search, retrieval, and use of knowledge and organizational memory
- Knowledge acquisition and transfer processes
- Knowledge management in small and medium enterprises
- Knowledge management strategy
- Knowledge management training issues
- Knowledge reuse in organizations
- Knowledge transfer and sharing behaviors within emergent organizational forms such as virtual communities
- Methodologies and processes for developing knowledge management systems
- Metrics and effectiveness of knowledge management and organizational memory systems
- Organizational and economic incentive structures for knowledge sharing and use
- Organizational culture impacts on knowledge management
- Organizational Learning
- Use of semantic networks, topic maps, the Internet, digital documents, XML, taxonomies, ontologies, and other technologies to implement knowledge management systems
