Exploring the Effectiveness of Online Education in K-12 Environments

Part of the Advances in Early Childhood and K-12 Education Book Series

Tina L. Heafner (University of North Carolina at Charlotte, USA), Richard Hartshorne (University of Central Florida, USA), and Teresa Petty (University of North Carolina at Charlotte, USA)

The integration of technology in classrooms is rapidly emerging as a way to provide more educational opportunities for students. As virtual learning environments become more popular, evaluating the impact of this technology on student success is vital.

Exploring the Effectiveness of Online Education in K-12 Environments combines empirical evidence and best practices in current K-12 distance learning and virtual schools. Emphasizing current research and opportunities, this book is an all-inclusive reference source for administrators, teachers, researchers, teacher educators, and policymakers interested in the development and implementation of blended and electronic learning in primary and secondary education.

Topics Covered:
- Blended Instruction
- Collaborative Learning
- Innovative Teaching Practices
- Learning Outcomes
- Online Educational Policies
- Online Learning
- Teacher Education
- Virtual Schools
