Diverse Applications and Transferability of Maturity Models

Shadrack Katuu (University of South Africa, South Africa)

Description:
Previously, professionals had to make judgment calls based on subjective criteria, including their own acumen, in their decision making. In order to combat this subjectivity, maturity models can be implemented to allow organizations a means of assessing everyday processes and to offer a path towards advancement using transparent objective criteria.

Diverse Applications and Transferability of Maturity Models is a pivotal reference source that provides vital research on the application of maturity models in organizational development in a variety of work environments. While highlighting topics such as open government, archives and records management, enterprise content management, and digital economy, this publication explores methods to help organizations effectively implement plans in any given management system. This book is ideally designed for professionals and researchers seeking current research on a variety of social science and applied science fields including business studies, computer science, digital preservation, information governance, information science, information systems, public administration, records management, and project management.

Topics Covered:
- Archives and Records Management
- Banking
- Digital Economy
- Digital Government
- Enterprise Content Management
- Governance Policy
- Information Management
- Maturity Models
- Open Government
- Project Management
- Social Media Usage
