An official publication of
the Information Resources
Management Association

INTERNATIONAL JOURNAL OF

Rough Sets and Data Analysis

IGI PUBLISHING
Publisher of IT books, journals and cases since 1988
www.igi-global.com

ISSN: 2334-4598; EISSN: 2334-4601

Established 2014; Published Quarterly

Editor(s)-in-Chief: Nilanjan Dey (Techno India College of Technology, India)

The **International Journal of Rough Sets and Data Analysis (IJRSDA)** is a multidisciplinary journal that publishes high-quality and significant research in all fields of rough sets, granular computing and data mining techniques. Rough set theory is a mathematical approach concerned with the analysis and modeling of classification and decision problems involving vague, imprecise, uncertain, or incomplete information. Rough sets have been proposed for a variety of applications, including artificial intelligence and cognitive sciences, especially machine learning, knowledge discovery, data mining, expert systems, approximate reasoning, and pattern recognition. The journal extends existing research findings (theoretical innovations and modeling applications) to provide the highest quality original concepts, hybrid applications, innovative methodologies, and development trends studies for all audiences. This journal publishes original articles, reviews, technical reports, patent alerts, and case studies on the latest innovative findings of new methodologies and techniques.

Individual Pricing

Print + Free E-Access: **\$275.00**

E-Access + Free Print: **\$275.00**

Institution Pricing

Print + Free E-Access: **\$765.00**

E-Access + Free Print: **\$765.00**

Topics Covered:

- Approximate and probabilistic reasoning
- Biomedical science
- Computing with words
- Connectionist expert systems
- Data mining
- Data Security
- Decision theory
- Dominance-based rough set
- Evolutionary Computing
- Fuzzy expert systems
- Fuzzy set theory and applications
- Genetic fuzzy systems
- Granular computing theory and applications
- Granular rough-fuzzy networks
- Hybrid connectionist-symbolic models
- Intelligent agent modeling
- Intelligent Control
- Knowledge discovery process
- Machine Learning
- Neural Networks
- Neuro-fuzzy systems
- Rough fuzzy hybridization
- Rough set algebras
- Rough set theory
- Rough sets and near sets
- Rough-granular computing
- Semantics of rough logic
- Web informatics
- Web intelligence and mining

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. INTERESTED AUTHORS MUST CONSULT THE JOURNAL'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at <http://www.igi-global.com/Files/AuthorEditor/guidelinessubmission.pdf> PRIOR TO SUBMISSION. All article submissions will be forwarded to at least 3 members of the Editorial Review Board of the journal for double-blind, peer review. Final decision regarding acceptance/revision/rejection will be based on the reviews received from the reviewers. All submissions must be forwarded electronically.

All submissions and inquiries should be directed to the attention of:

Nilanjan Dey, neelanjan.dey@gmail.com

All manuscript submissions to IJRSDA should be sent through the online submission system:

<http://www.igi-global.com/authorseditors/titlesubmission/newproject.aspx>

EDITOR-IN-CHIEF BIO

Nilanjan Dey, PhD., is an Asst. Professor in the Department of Information Technology in Techno India College of Technology, Rajarhat, Kolkata, India. He holds an honorary position of Visiting Scientist at Global Biomedical Technologies Inc., CA, USA and Research Scientist of Laboratory of Applied Mathematical Modeling in Human Physiology, Territorial Organization Of- Sgientifig And Engineering Unions, BULGARIA. He is the Managing Editor of *International Journal of Image Mining* (IJIM), Inderscience, Regional Editor-Asia of *International Journal of Intelligent Engineering Informatics* (IJIEI), Inderscience and Associated Editor of *International Journal of Service Science, Management, Engineering, and Technology*, IGI Global. His research interests include: Medical Imaging, Soft computing, Data mining, Machine learning, Rough set, Mathematical Modeling and Computer Simulation, Modeling of Biomedical Systems, Robotics and Systems, Information Hiding, Security, Computer Aided Diagnosis, Atherosclerosis. He has 8 books and 150 international conferences and journal papers. He is a life member of IE, UACEE, ISOC etc.
