Knowledge Management for Competitive Advantage During Economic Crisis

Part of the Advances in Business Strategy and Competitive Advantage Book Series

Patricia Ordoñez de Pablos (University of Oviedo, Spain), Luis Jovell Turró (Universidad Autónoma de Barcelona, Spain), Robert D. Tennyson (University of Minnesota, USA), and Jingyuan Zhao (University of Quebec at Montreal, Canada)

Strategy management has always been a crucial business aspect that a company must understand to remain successful in the business world. However, there are a number of different approaches that a company can employ in order to differentiate themselves from the competition.

Knowledge Management for Competitive Advantage During Economic Crisis brings together the various approaches that affect the superiority of a company's organizational performance and the gains they can make over their competitors. By focusing on concepts such as organizational learning and intellectual capital, this book is an indispensable reference source for researchers, practitioners, graduate students, and business managers interested in understanding what approaches are necessary to ensure superior organizational performance.

Topics Covered:

- Economic Development
- Human Capital
- Human Resource Management
- Innovation
- Knowledge-based Resources
- Relation Capital
- Structural Capital

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.
