International Journal of Healthcare Information Systems and Informatics (IJHISI)

ISSN: 1555-3396; EISSN: 1555-340X
Established 2006; Published Quarterly

Editor(s)-in-Chief: Qiang (Shawn) Cheng (University of Kentucky, USA) and Joseph Tan (McMaster University, Canada)

The International Journal of Healthcare Information Systems and Informatics (IJHISI) disseminates current technological innovations and applications in the emerging field of information systems and informatics applications in the healthcare industry while directing frameworks to advancing healthcare and clinical practices and research. This journal provides practitioners, educators, and researchers with an international collection of case studies, surveys, and empirical research using qualitative approaches as well as state-of-the-art reviews, papers, and books.

Topics Covered:

- Clinical decision support design, development, and implementation
- E-Health
- Healthcare
- Impact of HISI on public and social policy
- IT applications and measurements in health organizations and practices
- IT security and privacy issues
- Management of emerging healthcare technologies
- Medical Informatics
- M-Health
- Role of informatics specialists
- Telemedicine
- Virtual health technologies

Indexed in:
- Compendex
- Engineering Village
- Inspec
- Scopus
- WEB OF SCIENCE
- ESCI

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. Interested authors must consult the journal’s guidelines for manuscript submissions at www.igi-global.com/publish/resources prior to submission. All article submissions will be forwarded to the Editorial Review Board for double-blind, peer review.

All submissions and inquiries should be directed to the attention of:
Qiang (Shawn) Cheng, IJHISI@igi-global.com
