The **International Journal of Natural Computing Research (IJNCR)** provides a forum for researchers to disseminate knowledge on natural computing and to serve as a reference source for state-of-the-art innovative findings. IJNCR provides a comprehensive view of all aspects of natural computing with emphasis on its main branches.

- Artificial immune systems
- Artificial Life
- Artificial Neural Networks
- Cellular automata
- Fractal geometry
- Genetic and evolutionary algorithms
- Growth and developmental algorithms
- Molecular computing
- Quantum Computing
- Swarm Intelligence

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. INTERESTED AUTHORS MUST CONSULT THE JOURNAL'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at <http://www.igi-global.com/journals/guidelines-for-submission.aspx> PRIOR TO SUBMISSION. All article submissions will be forwarded to at least 3 members of the Editorial Review Board of the journal for double-blind, peer review. Final decision regarding acceptance/revision/rejection will be based on the reviews received from the reviewers. All submissions must be forwarded electronically.

All submissions and inquiries should be directed to the attention of:

Dr. Mehdi Khosrow-Pour, DBA, IJNCR@igi-global.com and journaleditor@igi-global.com

All manuscript submissions to IJNCR should be sent through the online submission system:

MISSION

The mission of the **International Journal of Natural Computing Research (IJNCR)** is to serve as a world-leading forum for the publication of scientific and technological papers involving all main areas of natural computing, namely, nature-inspired computing, methods to computationally synthesize natural phenomena, and novel computing paradigms based on natural materials. This journal publishes original material, theoretical and experimental applications, and review papers on the process of extracting ideas from nature to develop computational systems or materials to perform computation.
