

Manufacturing, Materials, and Mechanical Engineering (IJMMME)

An official publication of
the Information Resources
Management Association

INTERNATIONAL JOURNAL OF

Manufacturing, Materials,
and Mechanical Engineering

IGI PUBLISHING
Publisher of IT books, journals and cases since 1988
www.igi-global.com

ISSN: 2156-1680; EISSN: 2156-1672
Established 2011; Published Quarterly

Editor(s)-in-Chief: J. Paulo Davim (University of Aveiro, Portugal)

The **International Journal of Manufacturing, Materials, and Mechanical Engineering (IJMMME)** is a refereed, interdisciplinary journal that publishes high quality articles with special emphasis on research and development in manufacturing, materials and mechanical engineering. IJMMME provides discussion and the exchange of information on all important aspects of classical and modern mechanical engineering. In addition, IJMMME covers all sustainable development aspects related with, manufacturing, materials and mechanical engineering.

Individual Pricing

Print + Free E-Access: **\$275.00**

E-Access + Free Print: **\$275.00**

Institution Pricing

Print + Free E-Access: **\$765.00**

E-Access + Free Print: **\$765.00**

Topics Covered:

- Aerodynamics and fluid mechanics
- Artificial intelligence applied, optimization methods
- Automation and control
- Bioengineering materials, biomechanics and biotribology
- Bulk deformation processes and sheet metal forming
- Composites, ceramics, polymers / processing
- Computational mechanics / FEM modelling and simulation
- Computer-based manufacturing technologies
- Design and manufacture, medical device manufacturing
- Friction and wear of materials, corrosion resistance
- Functionality graded materials, cellular materials
- Heat treatments, microstructure and materials properties
- Hydrostatic transmissions and pneumatic
- Instrumentation and measurement
- Joining and fracture mechanics
- Kinematics and dynamics of rigid bodies
- Lubricants and lubrication
- Machinability and formability of materials
- Machining (traditional and non-traditional processes)
- Manufacturing design for 3r "reduce, reuse, recycling"
- Mechatronics and robotics
- Metallic alloys and metal casting
- Micro and Nanomechanics
- Multifunctional and smart materials
- Nanomaterials and Nanomanufacturing
- Rapid manufacturing technologies and prototyping, remanufacturing
- Recycling, materials and industrial wastes, products and recycling systems
- Renewable energies technology
- Solid mechanics and structural mechanics
- Sustainable and Green Manufacturing
- Thermodynamics and heat transfer
- Tribology and Surface Engineering
- Vibration and Acoustics
- Wood and wood products

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. INTERESTED AUTHORS MUST CONSULT THE JOURNAL'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at <http://www.igi-global.com/journals/guidelines-for-submission.aspx> PRIOR TO SUBMISSION. All article submissions will be forwarded to at least 3 members of the Editorial Review Board of the journal for double-blind, peer review. Final decision regarding acceptance/revision/rejection will be based on the reviews received from the reviewers. All submissions must be forwarded electronically.

All submissions and inquiries should be directed to the attention of:

J. Paulo Davim, pdavim@ua.pt

All manuscript submissions to IJMMME should be sent through the online submission system:

<http://www.igi-global.com/authorseditors/titlesubmission/newproject.aspx>

EDITOR-IN-CHIEF BIO

J. Paulo Davim received his PhD in Mechanical Engineering from the University of Porto in 1997, the Aggregate title from the University of Coimbra in 2005 and a DSc from London Metropolitan University in 2013. Currently, he is Professor at the Department of Mechanical Engineering of the University of Aveiro and the Head of MACTRIB - Machining and Tribology Research Group. He has about 30 years of teaching and research experience in manufacturing, materials and mechanical engineering with special emphasis in Machining & Tribology. Recently, he has also interest in Management/Industrial Engineering and Higher Education for Sustainability. He is the Editor in Chief of eight international journals, Guest Editor of journals, books Editor, book Series Editor and Scientific Advisory for many international journals and conferences. Presently, he is an Editorial Board member of 30 international journals and acts as reviewer for than 80 prestigious Web of Science journals. In addition, he has also published as author and co-author more than 10 books, 60 book chapters and 350 articles in journals and conferences (more 200 articles in journals indexed in Web of Science, h-index 35+).
