Frameworks for ICT Policy: Government, Social and Legal Issues

Esharenana E. Adomi (Delta State University, Nigeria)

ICT policy framework is a set of principles and goals intended to govern the development, implementation, adoption, monitoring, evaluation and application of ICTs in organizations, institutions, societies or nations. It provides the rationale and philosophy to guide the planning and development and utilization of ICTs in a particular setting.

Frameworks for ICT Policy: Government, Social and Legal Issues is a reference on ICT policy framework and a guide to those who are involved in ICT policy formulation, implementation, adoption, monitoring, evaluation and application. This comprehensive publication provides background information for scholars and researchers who are interested in carrying out research on ICT policies and promotes the understanding of policies guiding technology.

Topics Covered:

- Trust in e-government
- Legal responses to cybercrime threats
- Cybercrime regulation
- Regulation of Internet content
- ICT's role in development
- Business continuity planning
