International Journal of

Applied Evolutionary Computation (IJAEC)

ISSN: 1942-3594; EISSN: 1942-3608
Established 2010; Published Quarterly

Editor(s)-in-Chief: Wei-Chiang Samuelson Hong (Oriental Institute of Technology, Taiwan)

The **International Journal of Applied Evolutionary Computation (IJAEC)** covers state-of-the-art interdisciplinary research on emerging areas and of intelligent computation (IC). By providing an academic and scientific forum for exchanging high quality results on innovative topics, trends and research in the field of IC, this journal expands the fields and the depths of its most principal and critical concepts. IJAEC extends existing research findings (theoretical innovations and modeling applications) to provide the highest quality original concepts, hybrid applications, innovative methodologies, and the development trends studies for all audiences. IJAEC publishes three categories of papers: research papers, research notes, and research review. Research papers have significant original research findings. The research must be complete and contribute substantially to knowledge in the field. Research notes comprise research that is complete but not as comprehensive as to meet the criteria of a full research paper. Research reviews are novel, insightful, and carefully crafted articles that conceptualize research areas and synthesize prior research. Research review articles must provide new insights that advance our understanding of the research areas and help in identifying and developing future research directions.

Individual Pricing

Print + Free E-Access: **$275.00**
E-Access + Free Print: **$275.00**

Institution Pricing

Print + Free E-Access: **$765.00**
E-Access + Free Print: **$765.00**

Topics Covered:

- Bio-inspired systems
- Chaos Theory
- Cloud theory
- Data mining
- Data visualization
- Decision Support Systems
- Evolutionary algorithms and programming
- Evolutionary Computing
- Financial modeling
- Fuzzy computing
- Grid Computing
- Hybrid methods
- Immunological computing
- Interactive computational models
- Manufacturing Systems
- Natural computing
- Neural computing
- Optimization
- Power and energy
- Probabilistic computing
- Signal or image processing
- Time series prediction

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. Interested authors must consult the journal's guidelines for manuscript submissions at www.igi-global.com/publish/resources prior to submission. All article submissions will be forwarded to the Editorial Review Board for double-blind, peer review.

All submissions and inquiries should be directed to the attention of:
Wei-Chiang Samuelson Hong, st6114.mei@msa.hinet.net; samuelsonhong@gmail.com

All manuscript submissions to IJAEC should be sent through the online submission system:
http://www.igi-global.com/authorseditors/titlesubmission/newproject.aspx

EDITOR-IN-CHIEF BIO

Wei-Chiang Hong is a professor in the Department of Information Management at the Oriental Institute of Technology, Taiwan. His research interests mainly include computational intelligence (neural networks and evolutionary computation), and application of forecasting technology (ARIMA, support vector regression, and chaos theory), and tourism competitiveness evaluation and management. Professor Hong's articles have been published in many journals. Professor Hong serves as the program committee of various international conferences including premium ones such as IEEE CEC, IEEE CIS, IEEE ICNSC, IEEE SMC, IEEE CASE, and IEEE SMCia, etc.. In May 2012, his paper had been evaluated as "*Top Cited Article 2007-2011*" by Elsevier Publisher (Netherlands). In Sep. 2012, once again, his paper had been indexed in ISI Essential Science Indicator database as Highly Cited Papers, in the meanwhile, he also had been awarded as the *Model Teacher Award* by Taiwan Private Education Association. Professor Hong is a senior member of IIE and IEEE. He is indexed in the list of Who's Who in the World (25th-30th Editions), Who's Who in Asia (2nd Edition), and Who's Who in Science and Engineering (10th and 11th Editions).
