Mahesh S. Raisinghani (Texas Woman's University, USA)

Although web-based technologies have greatly influenced our society, only recently has its impact affected educational practices.

Curriculum, Learning, and Teaching Advancements in Online Education highlights the models and frameworks that have been effective in the development of online education into the classroom. By bringing together knowledge and experience, this book allows educational technologies to be evaluated in a more dynamic context. It is suitable for teachers, researchers, and academic experts interested in rethinking the fundamental processes of teaching and learning.

Topics Covered:

- Blended Learning
- E-Learning Initiatives
- Mobile Learners
- Network Learning
- Second Life
- Web-Based Learning
- Web-Based Technologies
