Academic Library Development and Administration in China

Part of the Advances in Library and Information Science Book Series

Lian Ruan (Illinois Fire Service Institute at the University of Illinois at Urbana-Champaign, USA), Qiang Zhu (Peking University, China) and Ying Ye (Nanjing University, China)

Description:

As the Chinese economy develops, academic libraries continue to evolve and provide indispensable services for their users. Throughout this growth, the scientific and cultural dialogue between China and the United States has made it necessary for each country’s libraries to understand each other. Academic libraries often act as catalysts for progress and innovation; proper management and applications of these resources is key to promote further research. Academic Library Development and Administration in China provides a resource to promote Sino-U.S. communication and collaboration between their academic libraries. In considering the relationship between China and the West, this publication serves as a timely reflection on the expanding global field of information science.

Readers:

This publication is intended for librarians, researchers, university administrators, and information scientists in both the U.S. and China.

Topics Covered:

- Chinese Ancient Collections
- Chinese Special Libraries
- Data Management
- Digital Associative Library
- Library and Information Systems
- Library Buildings
- Scholarly Learning Commons
- Special Subject Databases
- Technology Innovations
- User Services

About the Contributors

Index
Lian Ruan is Head Librarian and Director of IFSI International Programs for the Illinois Fire Service Institute at the University of Illinois at Urbana-Champaign. The library is one of the top three fire service libraries in the U.S. Her research interests cover use and users of information and international librarianship. She is President Elect of Chinese American Librarians Association. She serves on the Illinois State Library Advisory Committee, the SLA Emergency Preparedness and Recovery Council, SLA Diversity Leadership Development Program Committee, ACRL 75th Anniversary Celebration Task Force, ACRL representative to the ALA Advocacy Coordinating Group and the ALA Task Force on Equity, Diversity and Inclusion. She is the winner of the University of Illinois Chancellor's Academic Professional Excellence award and the SLA Diversity Leadership Development Program award. She has helped organize the Chinese Librarians Summer Program since 2005 in cooperation with partners both in the United States and China. The Summer Program has trained more than 246 librarians from 92 organizations all over China, including the Western Region.

Qiang Zhu is the Library Director at Peking University, as well as the Deputy Director of the Administrative Center of the China Academic Library & Information System (CALIS), and the Director of the Administrative Center of the China Academic Social Sciences and Humanities Library (CASHL). He is also Vice President of the Library Society of China and Chair of the Academic Library Branch, and a member of the FAIFE Committee, IFLA, ASIS&T, CALA, ALA, and the American Society of Information Science. He has been the Editor in Chief of Academic Libraries Journal since 1999, and an Editorial Board Member of Library Management since 2005. He is also the Chair of the National Library and Information Committee for Universities and Colleges under the Ministry of Education of China. He was a visiting scholar in the East Asia & Pacific Research Center at the University of Illinois at Urbana-Champaign from September, 1994 through July, 1995. Mr. Zhu has published more than 80 papers in the areas of academic library management, library automation, and resource-sharing systems.

Fred Y. Ye is currently a professor at Nanjing University, a Fellow of the European Academy of Sciences and Arts, a life-long member of the International Society for Scientometrics and Informetrics (ISSI), and a member of the editorial committees of the Journal of Informetrics, the Journal of Data and Information Science, and more. From September 2000 to September 2001, Dr. Ye was a Fulbright research scholar at the University of Arizona and the University of Michigan in the United States. Before joining the staff at Nanjing University, Dr. Ye was Dean of the Department of Information Resource Management at Zhejiang University (2002-2012) and Associate University Librarian at Zhejiang University (1997-2000). His research interests focus on scientific metrics and his present contributions concentrate on h-type metrics for network analysis, unified informetric mechanisms described by waveheat equations, and scientific metrics in physics, economics, and multidisciplinary fields.
