

Exclusive Discount Offer

As a small token of our appreciation, we would like to offer you a special discount for ordering copies of **Biologically-Inspired Computing for the Arts** (ISBN: 978-1-4666-0942-6). Simply complete the form below and return at your earliest convenience.

Biologically-Inspired Computing for the Arts: Scientific Data through Graphics comprises a collection of authors' individual approaches to the relationship between nature, science, and art created with the use of computers. Themes discussed in the book relate to the use of visual language in communication about biologically-inspired scientific data, visual literacy in science, and application of practitioner's approach. This comprehensive reference will assist readers in creating and effectively communicating their projects using science-related knowledge.
