the Information Resources
Management Association

INTERNATIONAL JOURNAL OF

Knowledge-Based Organizations

IGI PUBLISHING
Publisher of IT books, journals and cases since 1988
www.igi-global.com

ISSN: 2155-6393; EISSN: 2155-6407

Established 2011; Published Quarterly

Editor(s)-in-Chief: John Wang (Montclair State University, USA)

The **International Journal of Knowledge-Based Organizations (IJKBO)** examines current, state-of-the-art research in the areas of decision sciences and business intelligence, and the interactions, linkages, and applications of knowledge-based business with information systems. This journal provides an international forum for practitioners, educators, and researchers to advance the knowledge and practice of all facets of KBO, emphasizing emerging theories, principles, models, processes, and applications to inspire and circulate cutting-edge findings into research, business, and communities.

Print + Free E-Access: **\$765.00**

E-Access + Free Print: **\$765.00**

Topics Covered:

- Behavioral sciences
- Business forecasting, intelligence, and mathematics.
- Business Intelligence
- Computer science
- Decision making
- Decision sciences
- Decision theory
- Economics
- Electronic Commerce
- Ethical decision making
- Fussy information processing
- Geographic clusters
- Grid analysis
- Group decision making and software
- Informatics
- Information Technology
- Intelligent agents technologies
- Intelligent organizations
- Knowledge Discovery in Databases
- Knowledge engineering
- Knowledge-based aspects of organizations
- Management Information Systems
- Mathematical optimization
- Mathematics of decision sciences
- Methods of decision making
- Morphological analysis
- Multiple criteria decision making
- Network analysis
- Ontological Engineering
- Operations Research
- Perspectives of decision making
- Political decision making
- Psychology
- Public decision making
- Risk Management
- Robust decision making
- Scenario analysis
- Sensitivity analysis
- Sequential decision making
- Simulation methods
- Sociology
- Statistical decision
- Styles of decision making
- System analysis
- System theory
- Technological forecasting
- Virtual organizations
- Web-based decision making

SUBMISSION INFORMATION

Prospective authors should note that only original and previously unpublished articles will be considered. INTERESTED AUTHORS MUST CONSULT THE JOURNAL'S GUIDELINES FOR MANUSCRIPT SUBMISSIONS at <http://www.igi-global.com/journals/guidelines-for-submission.aspx> PRIOR TO SUBMISSION. All article submissions will be forwarded to at least 3 members of the Editorial Review Board of the journal for double-blind, peer review. Final decision regarding acceptance/revision/rejection will be based on the reviews received from the reviewers. All submissions must be forwarded electronically.

All submissions and inquiries should be directed to the attention of:

John Wang, journalswang@gmail.com

All manuscript submissions to IJKBO should be sent through the online submission system:

<http://www.igi-global.com/authorseditors/titlesubmission/newproject.aspx>

EDITOR-IN-CHIEF BIO

John Wang is a professor in the Department of Information & Operations Management at Montclair State University, USA. Having received a scholarship award, he came to the USA and completed his PhD in operations research from Temple University. Due to his extraordinary contributions beyond a tenured full professor, Dr. Wang has been honored with a special range adjustment in 2006. He has published over 100 refereed papers and seven books. He has also developed several computer software programs based on his research findings.

He is the Editor-in-Chief of *International Journal of Applied Management Science*, *International Journal of Operations Research and Information Systems*, and *International Journal of Information Systems and Supply Chain Management*. He is the Editor of *Data Warehousing and Mining: Concepts, Methodologies, Tools, and Applications* (six-volume) and the Editor of the *Encyclopedia of Data Warehousing and Mining*, 1st (two-volume) and 2nd (four-volume). His long-term research goal is on the synergy of operations research, data mining and cybernetics.
