

# Educational Technology and Resources for Synchronous Learning in Higher Education

Part of the Advances in Higher Education and Professional Development Book Series

Jiyeon Yoon (The University of Texas at Arlington, USA) and Peggy Semingson (The University of Texas at Arlington, USA)

## Description:

As more classes move to online instruction, there is a need for research that shows the effectiveness of synchronous learning. Educators must guide students on how to use these new learning tools and become aware of the research trends and opportunities within these developing online and hybrid courses.

**Educational Technology and Resources for Synchronous Learning in Higher Education** provides evidence-based practice on incorporating synchronous teaching tools and practice within online courses to enhance content mastery and community development. Additionally, the book presents a strong theoretical overview of the topic and allows readers to develop a more nuanced understanding of the benefits and constraints of synchronous learning. Covering topics such as game learning, online communication, and professional development, it is designed for online instructors, instructional designers, administrators, students, and researchers and educators in higher education, as well as corporate, military, and government sectors.
