Frameworks for Developing Efficient Information Systems: Models, Theory, and Practice

John Krogstie
(Norwegian University of Science and Technology (NTNU), Norway)

As advances in technology continue to generate the collective knowledge of an organization and its operations, strategic models for information systems are developed in order to arrange business processes and business data.

Frameworks for Developing Efficient Information Systems: Models, Theory, and Practice presents research and practices on the advancements in systems analysis and design. These theoretical frameworks and practical solutions are useful for researchers, practitioners, and academicians as this book aims to bridge the communication gap between business managers and system designers.

Topics Covered:
• Business Service Modeling
• Information Communication Technology
• Knowledge Management System
• Multi-Channel Information Systems
• Network-Based Modeling
• Service-Oriented Enterprise
• Software-Developing Organizations

Market: This premier publication is essential for all academic and research library reference collections. It is a crucial tool for academicians, researchers, and practitioners. Ideal for classroom use.

Publishing Academic Excellence at the Pace of Technology Since 1988
Section 1: Process Modeling

Chapter 1
Object-Aware Business Processes
Künzle Vera (Ulm University, Germany)
Weber Barbara (University of Innsbruck, Austria)
Reichert Manfred (Ulm University, Germany)

Chapter 2
Ontological Description and Similarity-Based Discovery of Business Process Models
Belhajjame Khalid (University of Manchester, UK)
Brambilla Marco (Politecnico di Milano, Italy)

Chapter 3
Towards Next Generation Provenance Systems for E-Science
Khan Fakhri Alam (University of Vienna, Austria)
Hussain Sardar (University of Glasgow, UK)
Janciak Ivan (University of Vienna, Austria)
Brezany Peter (University of Vienna, Austria)

Section 2: Structural Modeling and Semantics

Chapter 4
Modelling Information Demand in an Enterprise Context:
Lundqvist Magnus (Jönköping University, Sweden)
Sandkuhl Kurt (University of Rostock, Germany)
Seigenthul Ulf (Jönköping University, Sweden)

Chapter 5
Ontology Alignment Quality:
Sampon Jennifer (Statoil, Bergen, Norway)
Krogsgate John (Norwegian University of Science and Technology, Norway)
Veres Ciasha (University of Bergen, Norway)

Chapter 6
CASDF
Xiaofeng Du, University of Durham, UK
Malcolm Munro, University of Durham, UK
William Song, University of Durham, UK

Chapter 7
Modeling Approach for Integration and Evolution of Information System Conceptualizations
Gustas Remigijus (Karlstad University, Sweden)

Section 3: Object-Oriented Modeling

Chapter 8
Ontological Rules for UML-Based Conceptual Modeling:
Shan Lu (Around America Aviation Group, Canada)
Jeffrey Parsons (Memorial University of Newfoundland, Canada)

Chapter 9
A Longitudinal Study of Fan-In and Fan-Out Coupling in Open-Source Systems
Asma Mubarak (Brunel University, UK)
Steve Counsell (Brunel University, UK)
Robert M. Hiorns (Brunel University, UK)

Section 4: Goal and Actor Modeling

Chapter 10
A Method for Eliciting Goals for Business Process Models based on Non-Functional Requirements Catalogues
Cardoso Evelin (Federal University of Espirito Santo, Brazil)
Almeida João Paulo A. (Federal University of Espirito Santo, Brazil)
Guizzardi Renata S. S. (Federal University of Espirito Santo, Brazil)
Guizzardi Giancarlo (Federal University of Espirito Santo, Brazil)

Chapter 11
An Approach for E-Service Design Using Enterprise Models
Henskl Martin (Stockholm University, Sweden)
Johannesson Paul (Stockholm University, Sweden)
Perjons Erik (Stockholm University, Sweden)

Section 5: Methodology and Tools for Analysis and Design

Chapter 12
What Practitioners Think of Inter-Organizational ERP Requirements Engineering Practices:
Daneva Maya (University of Twente, The Netherlands)
Alhous Niv (Tel-Aviv University, Israel)

Chapter 13
The Impact of Regulatory Compliance on Agile Software Processes with a Focus on the FDA Guidelines for Medical Device Software
Mehrfard Hossem (Concordia University, Canada)
Hamou-Lhadj Abdelwahah (Concordia University, Canada)

Chapter 14
Predicting OSS Development Success:
Raja Uzma (University of Alabama, USA)
Tretter Marietta J. (Texas A&M University, USA)

Chapter 15
Towards Method Component Contextualization
Kornyshova Elena (Université Paris I – Panthéon Sorbonne, France)
Deneclère Rebecca (Université Paris I – Panthéon Sorbonne, France)
Claudepierre Bruno (Université Paris I – Panthéon Sorbonne, France)
