Digital Solutions for Contemporary Democracy and Government

Part of the Advances in Electronic Government, Digital Divide, and Regional Development (AEGDDR) Book Series

Kelvin Joseph Bwalya (University of Botswana, Botswana) and
Stephen Mutula (University of Kwa Zulu Natal, South Africa)

Description:
The dot-com revolution has brought many advances before unimagined. Of them all, it may be said that none have surpassed e-government in attracting a significant number of researchers and practitioners from around the world. However, the question remains whether everyone is ready to join the e-government movement, or if some are just blindly following the latest trend.

Digital Solutions for Contemporary Democracy and Government touches on several key issues and challenges surrounding the recent e-government boom and offers practical solutions from those who have been a part of implementing e-government programs internationally.

Readers:
This authoritative book is a valuable reference source for professionals, researchers, and students in the field of e-government, information management, or knowledge management.

Topics Covered:
- Citizen Engagement and Accountability
- Cloud Computing for e-Government
- E-Democracy and Social Development
- E-Government Design and Implementation
- E-Government Transparency
- Electronic Records Management
- Freedom of Information
- Models for the Measurement of e-Government
- Social Networking and the Public Sector

Hardcover + Free E-Access: $200.00
E-Access Only: $190.00
Chapter 1

The Gamut of e-Government Research, Design and Implementation: Key Issues

Bwalya Kelvin Joseph, University of Botswana, Botswana

Stephen Mutula, University of KwaZulu Natal, South Africa

Chapter 2

Realigning Governance: From e-Government to e-Democracy for Social and Economic Development

Bongani Ngwenya, Solusi University, Bulawayo

Chapter 3

Revisiting Local Governments and Social Networking: Do You Speak Our Language?

Gerald A. Merwin Jr., Valdosta State University, U.S.A.

Keith A. Merwin, Merwin & Associates, U.S.A.

Maureen McDonald. WDE Consulting, U.S.A.

John R. Bennett Jr., Valdosta State University, U.S.A.

Chapter 4

Social Media Use in the Public Sector

Antenech Ayanso, Brock University, Canada

Darryl Moyer, Brock University, Canada

Chapter 5

Increasing Voter Turn-up Using Mobile Phones as a Voting Tool

Emmanuel Eilu, Makerere University, Uganda

Chapter 6

SmartParticipation — Enhancing Citizens’ Participation via Recommender Systems

Luis Terán, University of Fribourg, Switzerland

Chapter 7

Citizens and e-government: Perceptions in Nigeria

Global Horizon Limited, University of South Africa (UNISA), South Africa

Chapter 8

Freedom of Information as a Catalyst for Responsiveness in the e-Government environment: A Case study at Botswana

Bwalya Kelvin Joseph, University of Botswana, Botswana

Sebina Mazebe Peter, University of Botswana, Botswana

Saal F.C. Zuza, University of Botswana, Botswana

Chapter 9

E-Government Initiatives: Key Functions of Electronic Records Management Requirements in the Malaysian Judiciary

Nurussobah Hussin, Universiti Teknologi Mara, Malaysia

Chapter 10

Knowledge Management and Electronic Records Management in the Realm of e-Government: Case of Botswana

Kelvin Joseph Bwalya, University of Botswana, Botswana

Chapter 11

E-Government Transparency and Citizen Engagement: Increasing Accountability

Deborah S. Caroens, Florida Institute of Technology, USA

Stephen Kies & Randy Stockman, Florida Institute of Technology, USA

Chapter 12

Understanding Methodology Aspects for Measuring Multi-Dimensional e-Government: Pointers for Research and Practice

Bwalya Kelvin Joseph, University of Botswana, Botswana

Chapter 13

A conceptual model for the measurement of e-Government 2.0 adoption by developing countries

Yfantis Vasilicos, Ionian University, Greece

Ahel Usoro, University of the West of Scotland, UK

Chapter 14

Value Assessment in E-Government and E-Government

Shu Wen Lee, Nanyang Technological University, Singapore

Pek Hia Lai, Nanyang Technological University, Singapore

Chapter 15

Sustainable cloud computing frameworks for e-Government: best practices in Italian municipalities

Subrina Leone, Università Politecnica delle Marche, Italy

Giovanni Biancofire, giovannibiancofire.com, Italy

Chapter 16

Incentives for Inclusive e-Government: The Implementation of Contact Centers in Swedish Municipalities

Irene Bemthold, University West, Sweden

Chapter 17

Research and experiences in implementing e-Government endeavours in emerging countries. A literature review

Manuel Pedro Rodríguez Bolívar, University of Granada

Laura Alcalde Muñoz, University of Granada

Antonio M. López Hernández, University of Granada

Chapter 18

Alejandro Sáez-Martín, University of Almería, Spain

Arturo Haro-de Rosario, University of Almería, Spain

Manuela García-Tabuyo, University of Almería, Spain

Maria Del Carmen Caba-Pérez, Universidad de Almería

Kelvin Joseph Bwalya, PhD, is a Senior Lecturer in Computer Information Systems in the Department of Library and Information Studies, University of Botswana. He is also a Senior Research Fellow at the University of Johannesburg, and a Senior IT reviewer for the Botswana Qualifications Authority. His PhD is in Information Systems (Information Management) from the University of Johannesburg. He also has a Master’s Degree in Computer Science from the Korea Advanced Institute of Technology and a Bachelor’s Degree in Electrical Engineering from the Moscow Power Engineering Technical University. His research interests include all aspects of computer information systems (e-Government, database design, process modeling, virtual reality, knowledge management systems, community informatics, etc.) and competitive intelligence. Dr. Bwalya has written 6 books published in the USA, England and Germany and has over 100 peer review pieces of research works and/or articles in international journals with high repute.

Stephen Mutula is currently the Acting Dean & Head of School, School of Social Sciences, University of Kwa Zulu Natal, South Africa. He holds a PhD in Information Science (University of Johannesburg, South Africa), Master’s Degree in Information Science (University of Wales, UK), Postgraduate Diploma in Computer Science (University of Nairobi, Kenya) and Bachelors Degree in Education – Mathematics and Chemistry (Kenya University, Kenya). He has published extensively in international refereed journals and books. He is a first co-author of book entitled: Web Informative Management: A Cross Disciplinary Technique, published by Chantors Publishing, London, 2007. He is also the author of Digital Economics: SMEs and e-Readiness, published in 2009 by IDEA Group Publishers, USA. He is an Honorary Research Fellow of the University of Zululand, South Africa. He has won several international excellence awards for his distinguished research work from various academic societies such as the Emerald Literati Club, UK.
