Sustainable Health and Long-Term Care Solutions for an Aging Population

Part of the Advances in Medical Diagnosis, Treatment, and Care Book Series

Ben Fong (The Hong Kong Polytechnic University, Hong Kong), Artie Ng (The Hong Kong Polytechnic University, Hong Kong) and Peter Yuen (The Hong Kong Polytechnic University, Hong Kong)

Description:
Lasting healthcare for the entire population, specifically the elderly, has become a main priority in society. It is imperative to find ways to boost the longevity of healthcare services for all users.

Sustainable Health and Long-Term Care Solutions for an Aging Population is a pivotal reference source featuring the latest scholarly research on issues pertinent to health cost and finding effective ways of financing healthcare for the elderly. Including coverage on a number of topics such as provider accreditation, corporate social responsibility, and data management, this book is ideally designed for policy makers, academicians, researchers, and advanced-level students seeking current research on the innovative planning and development of healthcare.

Topics Covered:
• Corporate Social Responsibility
• Data Management
• Financing Health
• Innovative Services
• Performance Measurement
• Provider Accreditation
• Public-Private Partnership
• Quality Improvement
